

# Waveland council takes action on trailers

Waveland, firmly avoiding the pitfalls recently encountered by their neighboring city, voted unanimously to deny any temporary trailer parking within the city limits.

"The ordinance is clear. House trailers are limited to parking in authorized trailer parks only," they said.

The council indicated that no action to the request was necessary on their behalf due to they having previously

approved the governing code.

Prior to the commencement of business, Mayor John Longo, Jr. in an effort to continue the promotion of national patriotism, often displayed during the Bicentennial, presented each of the board members with a pin depicting an American flag.

Longo then made presentation of like memento Mrs. Fran Stark of the Waveland Post, American Legion, in recognition of her many and untiring

efforts in the advancement of Americanism.

The council next heard from a parent who objected to the treatment sustained by his child from the Waveland police.

It appears two police officers visited the complainant's home to question his child in connection with the recent vandalism break-in at Waveland Elementary School.

The parent said that in spite of the fact that neither he nor any other adult was at home at the time, the two officers proceeded to vigorously question the child concerning a possible role in the incident.

Council agreed with the complainant that a censure of the officers concerned will be made.

Also on police related topics, council turned aside a bid to have speed bumps

installed on Central and Waveland Avenues in the vicinity of the park.

Council allowed that emergency vehicles moving to save a life, or respond to a fire during darkness may not see the bumps and severely damage their units; too, they said, motorists may also sustain damage to automobiles.

Sympathetic to the request, they said police would be instructed to keep an

eye on the area for speeders.

Other topics covered ranged through an agreement to install a water fountain at the Little League ball park, sewer hook-ups, street lights and lot cleaning, the public status of Magnolia Street, as well as a request to South Central Bell Telephone concerning a local dialing hookup along the entire Gulf Coast...a suggestion declared impractical by the telephone utility.

### "Freak" storm

## Tornado destroys church

BY JERRY WHITTLE

An early morning tornado, described by Hancock County Civil Defense Director Bob Boudin as "freak," struck

without warning in some sections of Bay St. Louis on Monday.

Left in the wake of its path was the complete destruction of the Robinson Chapel Church of God and Christ, located just across the L&N Railroad tracks on Washington Street, and damage to several other structures.

Boudin told the ECHO on Tuesday that John Heitzmann, City Assessor, had estimated the damage at approximately \$20,000. No injuries were reported in the aftermath of the storm.

Most of the damage was limited to the Washington Street section, but some damage was recorded to power lines, trees and roofs in other parts of the city. Boudin said his reports indicated three homes received roof damage, a power pole was damaged on Ulman Ave., near Himel's Auto Parts, two wooden gates were torn down at the old library, trees were reported knocked down on Main Street and minor damage was reported at several homes.

Boudin said he was alerted shortly before 6 a.m. and went immediately to his office to establish a communications base. The CD Director said Hancock County was not put under alert by the weather service in Mobile for anything other than heavy thunder storms and rain. He labeled the tornado "freak" because it was apparently not picked up by the weather service radar. Later in the day, a tornado watch was sounded for Hancock County and other areas on the Coast and lasted from 4:40 p.m. to 10 p.m. Monday night.

Boudin said his office notified the schools, hospital and radio station after the twister hit in Bay St. Louis. He also

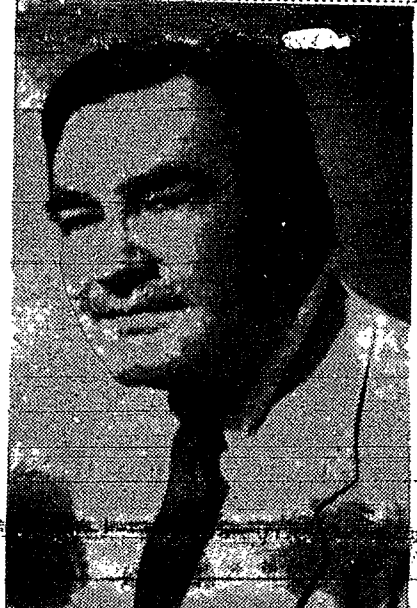

went to the storm damaged area to survey the damage and offered any assistance available through Civil

Defense.

The Alton Benoit home on Sycamore (Continued on Page 11A)

THE REMAINS of the Robinson Chapel Church of God and Christ on Washington Street were scattered about the neighborhood following an unexpected tornado early Monday morning. Damage estimates of the storm ran in the tens of thousands of dollars according to officials. No injuries were reported. (ECHO Photo by Jerry Whittle)

GORDON HOWELL

LARRY KNIFFIN

### Manager and assistant named for DuPont

The Du Pont Company has named Gordon B. Howell plant manager and Larry E. Kniffin assistant plant manager of the DeLisle plant being built in coastal Mississippi for the manufacture of titanium dioxide. The plant is expected to be operational in

1979. Howell has been manager of Du Pont's Edge Moor, Del., titanium dioxide plant since 1975. Kniffin has been project coordinator for the new titanium dioxide plant since 1972.

Kniffin expects to locate in coastal Mississippi in the near future. Howell expects to remain at the Wilmington headquarters to handle administrative aspects of the project until construction is further advanced.

Howell joined Du Pont in 1952 as a student operator at the Textile Fibers Department's Spruance plant, Richmond, Va., and was promoted to foreman of chemical spinning operations there in 1953.

He transferred to the Pigments (Continued on Page 4)

### Vandalism increases in area

Several acts of vandalism and theft have been reported in Hancock County and Pass Christian over the past several days.

Two schools reported break-ins during the weekend as thieves stole five IBM typewriters from Hancock North Central High School and Pass Elementary School reported broken windows and general vandalism at their school last weekend.

Last week, vandals uprooted and stole two scrub oaks from the Hancock City-County Library. This spring pear trees were stolen and other trees were removed last year. The beautification of the library is a project of the Bay-Waveland Garden Club and the Friends of the Library.

Vandalism was also reported at Primas' Pets and Supplies, 394 Washington in Bay St. Louis. The vandalism occurred between Saturday at 5 p.m. and 6 a.m. on Monday. After the break-in, the vandal or vandals poured dog shampoo and Comet into

(Continued on Page 4)

### McLeod Water Park

## Beck: "We have never built a park like this before!"

BY JAKE JACOB

"We have never built a park like this before!"

These were the words of Alvin Beck, executive vice president, Pearl River Basin development District, this week, when questioned concerning a break-down of McLeod Water Park cost figures dated April 1, 1977.

Beck said the sheet showed expenditures of \$234,041.40, numbers born out by canceled checks, vouchers and the like, in the PRBDD office in Jackson.

He said he felt he could understand some of the consternation being felt "locally" regarding the park but again verified the actual cost figure.

"Whether or not the people have got the value for this money is a different matter," Beck said.

He said the park is being costed in accordance with the directives of the district's auditor and attorney. "They set up these schedules and dictate what we do."

Beck said the federal auditor had just

completed going through the district's books and the McLeod Park was one of those audited.

He repeated, "We have never built a park like this before."

He said normally the district's crew, experienced in building parks, goes in and constructs the entire facility then turns it over to the county concerned for

operation.

He invited telephone conversations with the counties concerned to receive, first hand, a review of their experiences.

"Here, at the request of the people in Hancock, to try and keep everybody happy, we engaged the services of a local man, who came highly recom-

### Alternative mooring site is shelved by Board of Supervisors

BY JAKE JACOB

The development of Ann Street, from Central Ave., to Waite Ave., in Lakeshore, to form an alternative mooring site for vessels presently utilizing the overcrowded Bayou Caddy facilities was a matter shelved by supervisors on Monday after Bert

Courage, their contemporary from Beat One, advised them he lacked sufficient funds to undertake the project.

The issue of alternate moorings arose following the supervisors agreeing with their port and harbor commission to put the Bayou Caddy marina on a one

month probation, following their investigation of alleged irregularities regarding its operation.

Wilson Webre, port director, indicated agreement with its lessees John E. Ladner and Terry Ladner, that physical size limitations lay behind much of the unrest concerning the marina's inability to properly cater to both the commercial and sports fishing industries.

Still on water related topics, Webre told the supervisors that the Economic Development Administration had accepted the county's offer of \$225,000 to apply against the purchase of the Coastal Millwork Building at Port Blenville.

Upon completion of the transaction, Webre said the commission will proceed with their intent to lease the structure to Halter Marine of New Orleans. Halter intends to utilize the building for the manufacture of fiberglass boats and related items.

Supervisors authorized the transport of a government surplus fire truck from Key Field in Meridian to Stennis International Airport at Kiln. Switching back to Port Blenville they asked Webre to investigate complaints of

(Continued on Page 12A)

Further stressing result, Penton allowed that Gulfview had more exhibits in the county fair than any other school, averaging 285 entries per year.

"Maybe this course is now essential in every school but is essential to Gulfview and the community," Penton repeated.

He said that 60 to 65 students a day use the department, a total that includes seven grade eight boys.

Penton had two solutions to offer the

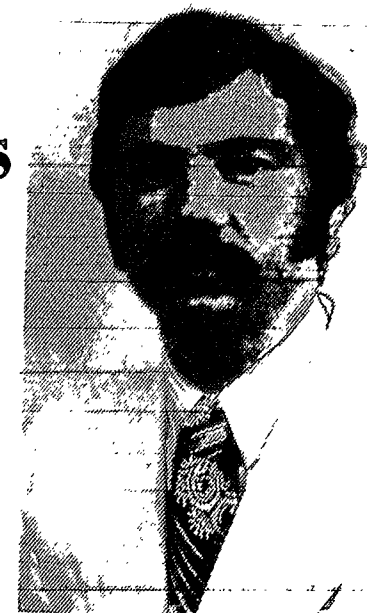

(Continued on Page 12A)

donment of the school's home economics department - a move hotly contested by the Parent-Teacher Organization and one arousing dismay in many of the students.

Penton, prior to outlining his plans, said Gulfview has had 72 eighth grade girls pass through the homemaking course in the past four years.

Of this number, 43 are still in school, 29 have dropped out, 17 are married, and 12 have children.

"To the Lakeshore community the homemaking class is essential," he

RAYMOND THOMAS

### Thomas has announced for Ward 4

Raymond J. Thomas has announced his candidacy for Councilman of Ward 4 as an independent candidate in the June 7th General Election.

## Pearlington Notes

BY ONA MAE MCARTHUR  
Get well wishes to Mrs. Carol Murphy from the Youth Girls Class of Pearlington First Southern Baptist Sunday School.

Get well to Ora Holden in the hospital again this week, also to Mary Smith who is home again from the hospital and Willard McCarthy who is home again also.

Our sympathy to family and friends of Mrs. Essie Frickie of New Orleans, the mother of Marvin Frickie of Pearlington.

Mr. and Mrs. George Marshall of Singapore are visiting several days with Mr. and Mrs. Carl Earl.

The Charles B. Murphy PTO will hold its final meeting of the 1976-77 school year on Tuesday, May 10 at 7:30 p.m. in the school cafeteria.

Joann Dorr enjoyed a week in the New Orleans area with family and friends.

Visitors to Mr. and Mrs. Lovell Dorr was his daughter Mrs. Vera Pullen of New Orleans.

Mr. and Mrs. Billy Bryant and Windy visited his parents Mr. and Mrs. Jim Bryant of Kenner.

Mr. and Mrs. Cliff McCarthy of Picayune were visitors in the home of Mr. and Mrs. Willard McCarthy.

On April 28, Mr. and Mrs. Floyd F. Smith became the parents of Jason James, a 7 lb. baby boy. The great-grandfather is James Averett and the grandparents are Mr. and Mrs. Floyd E. Smith of Pearlington.

Welcome to our new resident Mr. Roy's Antiques and watch repairs who recently moved here and opened a business.

A correction from last week, Mr. and Mrs. Louis Dawsey and Randy visited May Lusich, the name is Dawsey not Davis.

Happy Birthday to Martha Dawsey. Bevelie Ferguson and Larry Watkins.

## Obituaries

### MRS. HENRIETTA FARVE RUTHERFORD

Funeral services for Mrs. Henrietta Farve Rutherford, 87, a resident of 711 Old Spanish Trail, Waveland, who died Sunday, May 1, at her home, were held at 2 p.m. Monday at Edmond Fahey Funeral Home. Interment was in Bayou La Croix Cemetery.

Born June 7, 1889, in Bay St. Louis, she was the daughter of the late Lemuel David and Rosalee Farve and wife of the late John David Rutherford. She was a member of the Church of the Latter Day Saints, Waveland, American Legion Auxiliary and Order of the Eastern Star, Bay St. Louis.

Survivors include four sons, Selwyn S. Rutherford and Linwood L. Rutherford, Jr., both of Waveland; Melba (Pat) Rutherford and John D. Rutherford, Jr., both of Bay St. Louis; a daughter, Mrs. Dennis (Katie) Osbourn, Waveland; a brother, James Farve, Bay St. Louis; a sister, Mrs. Harold (George) Dragon, New Orleans; 16 grandchildren and nine great-grandchildren.

### LOUIS PETERS

Graveside services for Louis Peters were conducted Wednesday at 11 a.m. in the Baptist Cemetery at Pass Christian.

Peters, 62, a lifelong resident of Pass Christian, died Sunday at the Biloxi Veterans Administration Hospital.

He is survived by one daughter, Mrs. Brenda Varnado of Pass Christian; two brothers, James Welch of Pass Christian and Johnny Welch of Farmington, N.M.; one sister, Mrs. Lucille Gunn of Farmington; and four grandchildren.

J.T. Hall Funeral Home Chapel in Gulfport was in charge.

### JESSIE LAFARGUE

A 10 a.m. Mass for Mrs. Jessie Meggs LaFargue was celebrated Wednesday at St. Rose de Lima Catholic Church in Bay St. Louis, followed by burial in St. Mary's Cemetery.

Mrs. LaFargue, 91, of Waveland, died Sunday at the Gulf Coast Community Hospital in Biloxi.

She is survived by one son, Henry LaFargue of Waveland; one grandson and one great-grandson.

J.T. Hall Funeral Home was in charge.

### CHARLES BEAM

Funeral services for Charles Adam Beam were conducted Wednesday at 2 p.m. at Lee's Chapel 1 Baptist Church, followed by burial in Lee's Chapel 1 Cemetery.

Beam, 82, of Rt. 1, Bay St. Louis, died Sunday at the Biloxi Veterans Administration Hospital.

He is survived by two daughters, Mrs. Arthur Burge of Carriere and Frances Beam of Picayune; three sons, Albert Beam of Jackson, Alfred Beam of Hattiesburg and Bobby Beam of New Jersey; two brothers, Tom Beam of Florida and Edgar Beam of Bay St. Louis; one

sister; 11 grandchildren and five great-grandchildren. McDonald Funeral Home in Picayune was in charge.

### WILMER JOHN THIBEAUX

Funeral services for Wilmer John Thibeaux, 60, 116 Burnett Street, Bay St. Louis, were held Monday afternoon from Riemann-Fahey Funeral Home followed by a Requiem Mass at Our Lady of the Gulf Catholic Church with Rev. Msgr. Gregory Johnson, pastor, as celebrant. Interment was in Cedar Rest Cemetery.

Mr. Thibeaux died Saturday, April 30, at Gulfport Memorial Hospital.

Born September 28, 1916, in Erath, La., he was a retired butcher and a long-time resident of Bay St. Louis. He was former grand knight of Pere Le Duc Council, Knights of Columbus, and a member of Our Lady of the Gulf Catholic Church.

Survivors include his wife, Mrs. Edith Mauffray Thibeaux, a son Carl Thibeaux, both of Bay St. Louis; six step-sons, Lamar Ladner, Port Huron, Mich.; Larry Ladner, Bay St. Louis; Vester Ladner Jr., Kiln, Terrance Ladner, New Orleans; and Mark and Albert Bell, Bay St. Louis; four step-daughters, Mrs. Diane Sheets, Lynden, Wash.; Mrs. Marilyn Higgins, Mrs. Cheryl Frickie and Denise Ladner, all of Bay St. Louis; two brothers, Murphy and Ravis Thibeaux; a sister, Mrs. Rita Sandoz, all of New Iberia, La., three grandchildren and one great-grandchild.

### MRS. BARBARA ANN NORRIS CONTRERAS

Mrs. Barbara Ann Norris Contreras, 36, No. 2 Debbie Circle, Camille Village, Pass Christian, died Saturday at 12:20 a.m. in Memorial Hospital at Gulfport after a lengthy illness.

Mrs. Contreras, born Aug. 26, 1940, in Gulfport, was the daughter of Annie Prevost and Ernest Norris Sr., Pass Christian. She was a Methodist.

In addition to her parents, she is survived by her husband, Frank Contreras; one son, Danny Contreras; five daughters, Nine Maria, Norka, Terry, Dora and Christina Contreras, all of Pass Christian; one brother, Ernest "Panko" Norris, Gulfport, and three sisters, Mrs. Lillian Bissonnette, Gulfport, Mrs. Jeanette Hagen, Gulfport, and Mrs. Mary Rogers, Groves, Tex.

Riemann Funeral Home in Pass Christian was in charge. A prayer was held Monday at the funeral home chapel following by religious services at the Pass Christian United Methodist Church. Rev. James R. Myers, pastor, officiated. Burial was in Live Oak Cemetery.

### MRS. LOIS GUIDRY WATZKE

Funeral services for Mrs. Lois Guidry Watzke of Bay St. Louis will be held today at 2 p.m. at the Riemann Fahey Funeral Home Chapel in Bay St. Louis.

Mrs. Watzke, a resident of Rt. 2, Box 117 Old Spanish Trail, passed away Wednesday at Hancock General Hospital. Born Oct. 4, 1922, she was a member of the Methodist Church and had spent most of her life in Bay St. Louis.

Surviving are her husband, Charles A. Watzke, Jr. of Bay St. Louis; three sons, Charles, III of New Orleans, John and David of Bay St. Louis; five daughters, Mrs. Charlene Darder of Lakeshore, Diane Watzke of Orlando, Norma, Lori and Darlene Watzke of Bay St. Louis; four grandchildren.

Interment will be in the Garden of Memory Cemetery in Bay St. Louis, Riemann Fahey Funeral Home in charge.

### GLENDAN ANN LADNER

Glenda Ann Ladner, 22, a former resident of Poplarville and a resident of 429 Wainwright Dr. in Waveland, died Tuesday at the University Hospital in Jackson. Friends may call Wednesday from 6 p.m. until midnight at Edmond Fahey Funeral Home in Bay St. Louis, where a Rosary will be recited at 7 p.m. A 9 a.m. Mass will be celebrated Thursday at St. Clare Catholic Church in Waveland, followed by burial in Rotten Bayou Cemetery.

She is survived by her parents, Mr. and Mrs. Harris (Jeanette Cuevas) Ladner Sr.; three brothers, Harris Ladner Jr., Barry Ladner and Bryan Keith Ladner, all of Waveland; and her grandfather, Levi Cuevas of Orange Grove.

## St. Clares

### AWARDS NIGHT

Junior field day awards night for Kindergarten through fourth grade will be held at 7:30 p.m. Monday, May 9, in St. Clare's Parish hall. Parents are invited to attend.

### SCHOOL MASS

## McLeod Park

Investigation into the expenditures on the park. "Our records are open to inspection by the supervisors, or any other individual or group," he said.

Asked on several items Beck again indicated his office had substantiating records of all expenditures.

Specific questions concerned the costs of: picnic area, \$20,035.24; pavilion, \$27,046.83; ball park, \$27,167.42; boat ramp, \$26,332.33; travel \$6,167.75.

Of the last first, Beck allowed that 65 percent, or \$9,971.18 of the travel sum had been paid the "locally hired

manager" in the form of mileage reimbursement for use of his personal truck. Eight percent, or \$515.27, had been paid for travel involving Jackson office personnel.

He said the district's equipment payment system was based on the number of employees on their payroll during any given period. This formula was then developed by dividing the amortization by the employees, a figure then multiplied by the employees in each park for assessment against the park.

"It may not be the best system but that is the one the auditor wants," Beck explained.

Told that the supervisor had recently sought independent assessments of certain projects within the park, an assessment to be conducted by Fred Wagner, architect, and county engineer Larry Seal, Beck responded, "I can only tell you once again, we have never built a park like this before."

The average retail price per pound for ready-to-cook Grade A fryers in 1953 through 1955 was about 55 cents compared to the 1972 through 1975 price of almost 60 cents. The relatively stable price

**ADVERTISEMENT FOR BIDS**  
Sealed proposals for "Reroofing Portion of Hancock County Courthouse" - Bay Saint Louis, MS Project No. 7706 will be received by the Hancock County Board of Supervisors, until 10:00 a.m. Monday, May 22, 1977 at the Courthouse, Bay Saint Louis, Mississippi at which time and place all proposals will be publicly opened and read aloud.

Specifications are on file in the office of the Owner and Fred Wagner Architect, 362 Main Street, Bay Saint Louis, Mississippi. Copies of documents may be obtained from the Architect upon deposit of \$10.00 for each set. Upon return of complete, unutilized sets within 20 days of the date of bid opening, refunds will be made as follows:

100 percent refund on first set to bidding contractors.

50 percent refund on all other sets.

Proposals must be submitted on business letterhead, in triplicate, as set forth in Form of Proposal. Proposals must be accompanied by a bid security in the amount of 5 percent of the bid in the form of a bid bond countersigned by an agent in Hancock County or in the form of a certified or cashier's check made payable to the Owner. The successful bidder will be required to furnish a performance bond in the amount of 100 percent of the contract amount at the time of signing of the contract.

All bidders must hold Certificate of Responsibility and State Contractors License as and if required by law and both numbers shall appear on the proposal and on the outside of the sealed envelope.

No proposal may be withdrawn within thirty days after bid opening. The contract will be awarded to the lowest qualified bidder if sufficient funds are available. The Owner reserves the right to reject any and all bids and to waive any informalities.

of Bay St. Louis and resides at Box 556 9th Street. He attended St. Stanislaus College and Bay St. Louis Public Schools.

He is married to former Peggy Cochran, they have two children Ray Jr. and Chari. He has served as Secretary, Board of Directors, first and second vice president and president of the Bay St. Louis Jaycees.

Thomas represented Bay St. Louis, along with other Coast cities, in Wilkby, Penn. after their disastrous flood in 1972, in good faith for their relief help after Hurricane Camille, and received the key to their city for Bay St. Louis.

In 1973 he received the Distinguished Service Award, presented in appreciation of distinguished service to his Community, State and Country.

He is a member of Our Lady of the Gulf Church and has served as Board of Director on the Hancock County Civil Defense Advisory Committee. He is presently employed by H. B. Zachary Co. as a Craft Foreman.

Thomas said that he has chosen to run as an independent candidate, because he wants to represent all of the people of Ward 4, not just some of the people. He added, "In this way I feel that I can run as a person, rather than a party."

"I am a young man with headstrong ideas, I want the every day average concerned citizen to have a voice in the betterment of our community."

"I want my children, and your children to be proud of Bay St. Louis and make it their home, but in order to do this we have to supply them with a future."

"I am a concerned citizen with ideas in the betterment of Bay St. Louis as a growing city, not as a lazy never changing town along the Mississippi coast. Being a concerned parent and citizen, with the honesty and willingness to pay the price to fight for a better community, I can contribute as a working councilman, rather than a political politician."

Some of my insured property has been damaged. Should I report the damage directly to the company, or should I call my agent?

Rather than try to contact the company itself, you should contact the agent who wrote the policy. This procedure will usually save time since the agent has all the policy information necessary to report your claim. It depends upon the type of claim as to when it will be paid. If the damage is a result of a major storm, it sometimes takes slightly longer to service due to the excessive number of claims turned in. Normally you should be contacted within a week's time. If the fact is quite extensive, your agent should be made aware of this fact. It might be necessary to make immediate, temporary repairs to prevent further damage.

Monday May 9th

## Our Lady of the Gulf historical marker will be dedicated

Presentation and Dedication of Historical Marker for Our Lady of the Gulf Catholic Church will be held Monday, May 9th, at 4:30 P.M. on the steps of the church.

Residents are invited to attend the ceremony and a representative of the Department of Archives and History at Jackson will present the historical marker. The most Reverend Bishop of the diocese Joseph L. Howze will officiate, and accepting for the parish will be Monsignor Gregory J. Johnson, pastor of Our Lady of the Gulf Church.

The St. Stanislaus Band will present the musical program and Mrs. Michael D. Haas, Sr. will narrate a brief creative history of the church and its establishment in 1848. Representing the Hancock County Historical Society will be Lionel Baxter.

Our Lady of the Gulf's First Pastor:

On July 2, 1808 a young child was born in Paris, France. His parents christened him Louis Stanislaus Mary Buteux. Like many other young boys, God called Louis to be a priest. He studied at the Seminary of St. Sulpice in France and was ordained in 1836.

Fr. Louis was the adventurous type and he came to the missions of Indiana. There he became Chaplain to the Sisters of Providence. These sisters had come to found St. Mary of the Woods College near Terre Haute, Ind. Fr. Louis worked at its construction as a laborer. He found the climate in the north too severe and asked to be sent down South.

Bishop Chanche of the Diocese of Natchez welcomed him to Mississippi and sent him to Bay St. Louis as its first pastor. Fr. Buteux wrote the following in his diary: "Saturday, July 31st, the feast of St. Ignatius; Bishop Chanche told me at Natchez that he confided to me Bay St. Louis, Pass Christian, Pearl River, Jordan and Wolf Rivers, as far as 20 to 25 miles to the north."

Fr. Buteux reached Bay St. Louis on August 8th and stopped at the Grand Hotel conducted by Mr. and Mrs. J. B. Toulme. On August 15th, Feast of the Assumption, he offered the first Mass at the courthouse. As pastor, his task was not to be an easy one. His flock was scattered and, for the most part, ignorant. He did not have a church, so Mass was offered in the home of some private family, until a church was built.

Fr. Buteux's dream soon became realized. On March 28, 1848, Bishop Odun of Galveston, Texas, blessed the cornerstone of the new church. It was a brick structure of Gothic style, measuring 165 feet 7 inches long and 46 feet wide. From these dimensions, one can well imagine that it was one of the largest churches in the Diocese at that time. On August 19, 1849 Bishop Chanche blessed the church. Bishop Blanc of New Orleans also graced the occasion with his presence. It was he who blessed the bells.

Now Fr. Buteux had a church and a rectory. His next project was to be a school. On Sept. 1, 1852, he opened the first school for boys in Bay St. Louis. He placed the Christian Brother in charge of it. This school was intended primarily for the boys of Bay St. Louis, but a few boarders from New Orleans were accepted and they lodged in the rectory. In all probability this was the first boarding school for boys in the Diocese of Natchez. Terror struck in 1853 in the form of yellow fever. Fr. Buteux was forced to close the school and dismiss the boarders.

He did not lose heart. He reopened the school in June, 1854 and placed the Brothers

of the Sacred Heart in charge.

In August of that same year he went to France and contacted Brother Polycarp, Superior of the Brothers of the Sacred Heart. He told him of the advantages of a boarding school for boys in Bay St. Louis. His efforts were successful. St. Stanislaus College was founded due to his efforts. It was named after that great first pastor of Our Lady of the Gulf Church - Fr. Louis Stanislaus Mary Buteux.

His tireless work drained him of his strength and energy over the years in Bay St. Louis. On Nov. 17, 1859 he was relieved of his duties. He spent the remaining years of his life in Boston. There he was Chaplain to several Catholic institutions.

Bishop Elder paid him a final tribute at his death: "On June 14, 1875, Rev. Louis Stanislaus Mary Buteux died in Boston after years of fruitful labor and others spent in patient suffering, still occupied with the service of souls." Bay St. Louis and the world had lost a great man. His memories still live on.

Long before the French explorers came to this area, the city of Bay St. Louis was an Indian village bearing the name of Accoupolou. In all probability, Robert Chevalier de la Salle was the first white man to explore this part of the Coast. De la Salle's official historian, Jacques de la Merairie, tells us that on April 7, 1682, la Salle went to explore the shores of the Gulf Coast. Six years later the faithful Tonti came as far as the Gulf to seek tidings of his lost friend.

When Pierre La Moyné d'Iberville came to plant the fleur-de-lis of France on the Gulf Coast, his attention was drawn to this little village. French, the historian, tells us: "On the 12th of April, 1699, d'Iberville set out to visit a bay about nine leagues from Ship Island, to which he gave the name of St. Louis. But finding the water very shallow there, he concluded to fix his settlement at Biloxi." This visit to the Bay area, was just a casual visit to sound the depths of the water. It was Pierre's brother, Jean Baptiste le Moyné de Bienville, who set foot on the land and gave it its present name. He did this on the feast of St. Louis, August 25, 1699.

The location of the Bay was excellent for d'Iberville. In December of 1699, he sent a sergeant and 15 soldiers, together with a few families, to form a colony at Bay St. Louis. The spirit of the Crusades was still around as far as the French was concerned. Wherever they went they brought two things: the French flag and the Cross of Christ. Side by side with the explorers stood the priest. The expedition of d'Iberville was no exception to this rule. Father Athanasius Douay and Father Bordenave accompanied d'Iberville on his expedition to the Coast. They probably visited the colony of people in the Bay from time to time.

From 1699 on history has been silent about the names of missionaries serving the Bay St. Louis area. It is known that some missionaries from Mobile and New Orleans visited the Coast occasionally during these years.

In 1820, Bay St. Louis had a young priest performing the clerical duties for the people. His name was Fr. Michael Portier. Later, Fr. Michael became the first Bishop of Mobile. After Fr. Michael came the Lazarist Fathers - Fathers Borgna, De Angelis and Aquatoni. These priests were followed by secular priests: Fathers Gallagher, Gury and Martin.

On July 28, 1837 Pope Gregory XVI established the Diocese of Natchez. A Sulpician Father, Rev. John

Mary Joseph Chanche became its first Bishop. It is interesting to note that Father Chanche had been offered the bishoprics of Baltimore, Boston and New York. He turned them down to receive Natchez.

### THEN and NOW!

with a device called the tonometer can help detect glaucoma even in its early stages. The National Society for the Prevention of Blindness, which sponsors a Glaucoma Alert Program, urges people over 35 to have their eyes examined every two years because today glaucoma can generally be controlled with medication, though some cases may require surgery.

THEN Because the eye disease glaucoma has no pain or symptoms in its early stages, people often didn't know they had it. And because no treatment was available, glaucoma progressed slowly, destroying vision and leading to blindness.

## Guest Editorial

### Vote informed

By JOE PILET

May 10 is almost upon us! That is the day when, hopefully, the largest turn out of voters ever recorded in the history of Bay St. Louis will go to their several polling places and cast a ballot which will help mold the destiny of our town for the next four years. Voting is a privilege and a responsibility. It is gratifying to review the list of candidates and see qualified, public-spirited persons seeking office.

The Election Commission on Monday expected to begin compiling an accurate count of qualified voters, however, it is estimated that more than 4,200 persons will be eligible to vote.

Through the columns of this paper, as well as through personal contacts and other media each candidate has made information concerning his qualifications available to voters. It is the responsibility of each voter to vote intelligently. This can best be accomplished by a thorough study of the background of each candidate. Suggested questions to be asked of the several candidates include searching

ones such as: (1) If you are elected, what are your plans for improving Bay St. Louis? (2) Why do you feel you are qualified for the office you seek? (3) Have you any health problems that might interfere with your efficiency in office? (4) How well do you get along with people when under stress? (5) Although salaries will not be set until after the election, what do you feel would be a fair salary for the mayor? For the Commissioners? Should various issues be meaningful to the voter, he should not hesitate to ask candidates how they stand, nor should there be any embarrassment in seeking information concerning past records. In our democratic system the majority of the people have consistently been proven right. Let's get the majority of the people to the polls on election day and let's have that majority a well informed group dedicated to the objective of putting persons in office who will work in harmony together in creating an impartial, fair and progressive government for our pleasant and growing community.

#### CRITERIA FOR CHANGE

As the curtain drew to a close on the 1977 Mississippi legislative session, the state's lawmakers approved creation of a joint committee to study possible routes to government reorganization.

Perhaps there is no greater need in state government today than reorganization of the massive bureaucracy. Estimates as to its size range from 160 agencies, departments, commissions and boards to as many as 240.

It is remarkable that apparently no one knows exactly how many departments state government has and what constitutes a department.

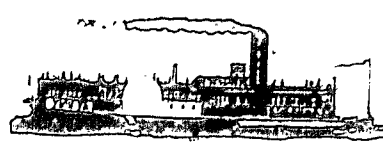

So the special committee, composed of seven representatives from each legislative chamber, has its work cut out for it. It must answer the question "Is the taxpayer getting the best services and most efficient government for his tax dollar?"

If the answer to that question is "no," then the committee members must be willing to map a new course for state government.

There were several attempts to reorganize during the recent session. Several bills won overwhelming acceptance from the Senate but failed in the House. Now the legislators have the opportunity to get their heads together and devise some mutually agreeable plan.

The Mississippi Economic Council, which has called for such a study of government reorganization, has established criteria for any such plan. According to MEC, a good reorganization effort should help bring about orderly growth for Mississippi, improved public services, and smoothly functioning state government operations.

The lawmakers should keep those goals in mind as they begin their deliberations.

## Whittlin' With Whittle

By JERRY WHITTLE  
ECHO MANAGING EDITOR

We were all ready to heap words of praise upon the highway department last week for their efforts to fix the extreme water problem on Hwy. 90 near Henderson Point in Pass Christian. But we'll have to wait and it could be a long wait. We noticed a great deal of effort being made to correct the water problem and had high hopes of no more high tides for motorists traveling east on 90.

Then came Monday night! True, we

had a bunch of rain in a short amount of time, but some how, some way there has to be a solution to the problem. Traveling down the dark road during the aftermath of the storm, we were aware of the road conditions because of our previous near serious wreck at the spot. But what's to happen to those unsuspecting?

Let's throw out a few what ifs. What if you were a stranger traveling from the Bay to Biloxi, Mobile or some other

point to the east and unfamiliar with the condition of the road after a rain? What if you expected the road to be safe? What if you read the speed limit sign that said "speed limit 50 miles per hour" and expected that to be the safe speed you could travel? What if you hit a wall of water at the regular, normal speed? A lot of questions, but one simple answer...you would be in a lot of trouble. Two motorists got their surprise answer Monday night. One was found off the beach side of the road and near the wall. A wrecker was present to haul off the damaged auto. A few yards down the road, we found another poor soul with a similar problem. He was in the left hand lane headed in the wrong direction madder than a hornet with the exterminator hanging overhead. The latter had a busted tire and most likely a damaged wheel as a result of his entanglement with the wall of water.

Workmen were busy as bees recently in an attempt to provide decent drainage in the problem area...apparently they failed. Tuesday morning they were at it again and hopefully they will have better luck this time around.

What, we ask, would be wrong with putting up several signs along the side of the road to warn motorists? We'll even offer a suggestion as to the wording, "Caution! Water on roadway following rain." That's an immediate solution. Long range would be several drains, but we'll leave that to the

engineers. Bad scene and could get worse if some thing is not done.

Flipping the coin and looking at the good side, we find a note that Sunday is one of the most special days of the year...Mother's Day. This is the day set aside each year during which we are to honor the most important female in our lives. Mother, mom, mama or whatever you selected as a call when you needed a special favor, help or assistance, she was (or is) the one you always turned to when in need. We should honor our mother 365 days a year, but be sure you take the time to say, "Happy Mother's Day."

A gentleman presented a problem for us a few weeks ago that is truly one we have noticed. Problem: there are few if any road signs in the upper part of the county to direct us to where we would like to travel. This gentleman was a prospective buyer of property in Hancock County, but couldn't find his way around to locate the property he was searching for at the time. Sure need some help here.

This will be the final column before the Bay St. Louis Democratic primary on May 10th. If this is your choice of a party sign, we strongly urge you to vote. It's your choice and your duty...protect your rights by voting!

Have a nice day.

## News from Stennis

Senator John C. Stennis announced today that the Air Force plans to begin removal of Herbicide Orange from the Naval Construction Battalion Center in Gulfport on May 10. The operation is expected to take 21 days.

The herbicide which has been stored at the Center since 1969 will be pumped aboard railway tank cars at the Center and transported to the port of Gulfport.

It will then be pumped onto a special incinerator ship which will take the cargo to an approved site in the mid-Pacific for incineration. Removal and incineration is being carried out under a permit issued by the Environmental Protection Agency on April 26, 1977.

Stennis said that in order to insure that there is no adverse effect on the environment, the operation will be monitored closely by the Air Force's Environmental Health Laboratory and Battelle Laboratories of Columbus, Ohio.

The de-drumming and pumping of the herbicide into the tank cars and from the tank cars onto the ship will be carried out by members of Combat Support Squadrons from a number of Air Force Logistics Command bases around the country. More than 100 members of these teams will work two 10-hour shifts six days a week until the removal is completed. The loaded tank cars will be moved from the Center to the Port of Gulfport once a day in the early daylight morning hours.

WASHINGTON, D.C. - Senator John C. Stennis today urged special consideration of the particular needs of American farmers as formulation of a

national energy policy moves forward. In a Senate speech, Stennis said, "I am not talking now on behalf of a special interest, but rather on behalf of the national and public interest for the strength and welfare of our nation."

Stennis stressed that the American farmer "has taken care of the needs of the American consumer. He had a key role in raising our standard of living to the highest in the world. That standard cannot possibly be maintained without the farmer as a going concern."

The Mississippi Senator explained, "The farmer has a vital need for oil and gas and other petroleum products. Natural gas is the feed stock for anhydrous ammonia, which is one of our most important and effective fertilizers...and any increase in the cost of natural gas to the manufacturers will show up in the increased price of fertilizer which, in turn, will show up in the increased cost of food in the grocery store." Likewise Stennis said increases in the cost to farmers for gasoline, diesel fuel and bottled gas will be reflected in higher food prices.

Stennis emphasized that America exports more agricultural commodities each year than the other five or six exporting nations combined. "It is difficult to over-emphasize the importance of agriculture to our national economy and world trade," Stennis said.

"Last year our bill for imported oil was \$36 billion. This year it may reach \$45 billion." He continued, "Our agricultural exports of well in excess of \$20 billion last year went a long way in partially offsetting and balancing this drain." Stennis expressed the opinion that "foreign agricultural trade is one of our most basic 'weapons' in international commerce."

"While emphasizing that he has not reached any conclusions on the details of the President's proposals, the Mississippi Senator commended President Carter for his forthrightness in putting forth specific energy recommendations. He said, "It is now incumbent on the Congress to match the President's boldness and decisiveness, and fashion a comprehensive energy program, which, as far as possible, will be fair to all and will spread the necessary sacrifices evenly and equitably." He concluded, "For too long now we have let events control us in the energy field rather than taking positive acts to control events and our future energy posture. The time for action is now."

WASHINGTON, D.C. - Senator John C. Stennis today urged special consideration of the particular needs of American farmers as formulation of a

## Washington Report

by Trent Lott

#### NO GAS TAX

WASHINGTON, D.C. - In the past week I'm sure you've all been doing a lot of reading, thinking and talking with your families and friends about President Carter's energy proposals. It's one of the most important issues he has faced since entering office, and I think it is important to discuss some of the specifics of the program.

The first and most important aspect of the program is that it emphasized the seriousness of our energy situation. President Ford brought most of these problems up two years ago but the Congress didn't give him or our energy problems much more than the time of day. As long as we the people didn't have to wait in lines to put gasoline in our cars we didn't want to think about an energy shortage, much less do something about it. President Carter has taken the bull by the horns and has made us all face the "ugly head" of the problem, which is and has been a real problem. The Nation needs a strong energy policy.

As would be expected, there are some objections to the President's proposals. As one of my colleagues noted, "While he has shown boldness in presenting a comprehensive package, his program

of conservation, penalties and higher taxes threatens a new round of inflation, increased unemployment and the pocketbooks of our consumers." The main fault with the program is that it does not address production. I wish more emphasis had been placed on this vitally important aspect of our energy dilemma. His program removes billions of dollars from the economy and gives them to the government rather than to the people and businesses who would use that money to look for new sources of energy.

The President did not seem to consider this matter of incentive when designing his program. Nowhere in his proposals does he provide for the development of new gas and oil resources. If people go on using gas and oil at the current rate, you can tax them to death but that does not create more gas or oil. By taking money out of the private sector the likelihood that the companies will be able or willing to conduct research and development of new energy sources is decreased.

Possibly the most regressive part of the President's proposal, and the one he is likely to be refused in conservation. Granted, hitting the consumer in his pocketbook is where it hurts the most, but it has never stopped the American consumer from spending in the past. Americans do waste energy - that is an accepted fact. However, increasing the tax rate is an inefficient method of reducing energy consumption. Tax rebates are ineffective because of the inequality of the system. The President's recommendations discriminate against the rural and suburban residents who must use their automobiles. In addition, the energy program's tax proposals will remove between twenty-five and thirty billion dollars annually from the private sector, and this is the most conservative of estimates; others range as high as \$75 billion each year. This program is built around collecting taxes and then redistributing them as rebates, an expensive process in itself. Credits would keep the money in the economy, stimulate growth and provide an incentive for reducing consumption.

Credits were the most positive recommendation in the speech. The President suggested that tax credits be provided for home insulation, solar and geothermal "weatherization," and heating systems that reduce the use of

fuel. I sponsored such a bill three years ago, and while the House has passed this proposal several times since then, the Senate has never done so. I think it's high time they did, and I applaud this presidential recommendation.

We need a program that encourages production, rewards the consumer with tax credits rather than rebates, and limits rather than enlarges the government's already excessive interference in our businesses and lives.

## Governor Cliff Finch REPORT TO THE PEOPLE

JACKSON - The State Budget Commission is now studying the possibility of adopting a program budgeting approach to the expenditure of all state funds.

Some of you may recall that I strongly endorsed this approach during my last State-of-the-State message to the Legislature, because I believe that program budgeting can be a major step toward our goal of cutting bureaucracy by spending less and getting more for what we do spend.

What is program budgeting? It's simply the evaluation of each dollar we spend on a regular basis. If a dollar cannot be justified as worth at least a dollar's return to the people, then that dollar would not be spent but applied to more urgent needs. Program budgeting is nothing more than a fancy name for what you do each day in your personal budget: You merely look at what you are spending for a particular item and determine whether that item is worth what you are paying for it. If not, you cut it out rather than continuing to purchase goods or services you no longer need. I personally think that you should demand at least as much from your government.

Program budgeting can help us measure the effectiveness of our efforts by what we do for the people, instead of by how much money we spend in a particular area.

You, the taxpayers, are becoming more sensitive to where and how your

tax dollars are being spent, and I don't blame you. It does appear that at least part of what is spent by government is not providing a fair return to the people.

Therefore, we need a more systematic approach, one which will define objectives and measure performance on a regular basis. Such an approach will help us in government measure our production against our promises to you, the people.

It is my strong belief that program budgeting can help us eliminate unneeded, obsolete and duplicated programs, while at the same time improving the services to the people. Through such a streamlining of our budgeting, I am confident we will be able to free scarce tax dollars from low priority programs and apply them to areas where help is really needed.

During the past several years, our state has had an increase in tax revenues because our economy has improved. However, these increases have been offset by increased expenses of operating government, leaving us very little to apply toward any new or expanded programs that are needed by the people.

I strongly believe that program budgeting can be a major way of providing some of these needed new services without adding to the tax burden of the people of a state which still has the lowest per capita income in our nation.

## Letters to the Editor

April 28, 1977

Dear Larry,  
The observance of 1977 National Library Week in Bay St. Louis, was successful thanks to you and your help in regard to FIELD DAY.

Through your efforts and participation in this even, you aided the National Library Week committee in making the public more aware of the value of the library in today's society. In the past the library has been taken for granted. Through our combined efforts, we hope this isn't true any more.

Thanks again for your help and support. National Library Week would not have been the same without it.

Sincerely,  
Billy W. Rhodes  
Chairman  
Field Day Event  
National Library Week Committee

SEA COAST ECHO  
112 S. 2nd St.  
Bay St. Louis, Ms. 39520

Dear Sir:

On May 10th next, the Air Force will begin moving the some 15,000 drums of the lethal HERBICIDE ORANGE from the Navy CONSTRUCTION BATTALION base, West Gulfport, to the Gulfport docks for transport aboard the

MV VULCANUS to the South Pacific for eventual incineration.

We all owe a deep debt of gratitude to Senator John Stennis and Congressman Trent Lott, especially, and all the other concerned and interested citizens who wrote letters to Washington, and who testified before the Environmental Protection Agency to obtain the removal of these drums.

Perhaps, Washington is listening! Cordially,  
J. Ashton Greene  
Pass Christian, Ms.

## Buccaneer Park ranger seeks county aid in job restoration

BY JAKE JACOB

"We intend to make every effort to reestablish our good rapport with the community surrounding Buccaneer State Park, as such is essential to the success of our effort," Mississippi State Park Commission director Jerry Williams said this week.

Williams was answering questions posed by this paper following the appearance of the park's former chief ranger, Stan Weidman, before the Hancock County Board of Supervisors on Monday.

Weidman reiterated his former statements concerning the commission's issuance of his release orders telling the supervisors he had not been provided with any reasons for the act.

Alton A. Kellar, board prexy, said his group was concerned and promised Weidman they would call for an explanation. A letter seeking the information is to be sent by the board to Williams.

"This board has been bypassed in every phase of this park operation...we do not understand what is going on," Kellar said.

Williams, going deeper into the cause of his act than on previous occasions, said, "The dismissal was the result of board action taken at the April 30 meeting of this commission. He cited three main reasons contained in the commission resolution - a certified copy of which was, he said, forwarded by mail to Weidman.

The reasons, in explanatory words, were, Williams said: "Failure to follow commission orders and instructions; failure to correctly manage the park staff; failure to open facilities as ordered by the commission."

The commission director said the action of dismissal was the harshest measure available to his board and one taken only after repeated attempts to bring the employee around.

The director said it was true the park had been short of personnel, a fact in evidence since last October.

"Counting himself, the ranger has seven permanent positions at the park, and seven part time positions."

"The part time positions run from May 1 to Sept. 15, but owing the budget delays this year we set back the rehiring date to May 26 or 27th."

"Except for a brief hold on the ranger two positions in November, Weidman could have been back at the park at any time."

Kellar, talking at the board meeting said the people of the county particularly those of Waveland, Cherment Harbor, and Lakeshore, are proud of the facility.

Weidman limited that one of the reasons behind the park

commission not wanting a local man in charge in Hancock was that local politics became involved.

"If local politicians are not interested it is time we all buttoned up and went home," Kellar responded quickly.

"You have built something down there we are all proud of and we have written the governor of this state to that effect."

The governor had replied stating his intention to meet with the park's commission concerning some of its policies, particularly that dealing with the employment of local people.

"I don't see how they (the park's commission) can take this attitude," Kellar added.

Weidman received three, unexpected endorsements of his tenure and park operation methods.

The first came from Henry Otis, Hancock circuit court clerk, and registrar of voters, who said he had been a frequent camper at Buccaneer and that during such excursions he had heard no complaint against Weidman.

"We have heard campers from New Orleans and other places say that if Weidman is moved they won't come back," Otis said.

The two other endorsements came from the county's law agency.

Sheriff Sylvan Ladner retorted that his department has only been asked to assist

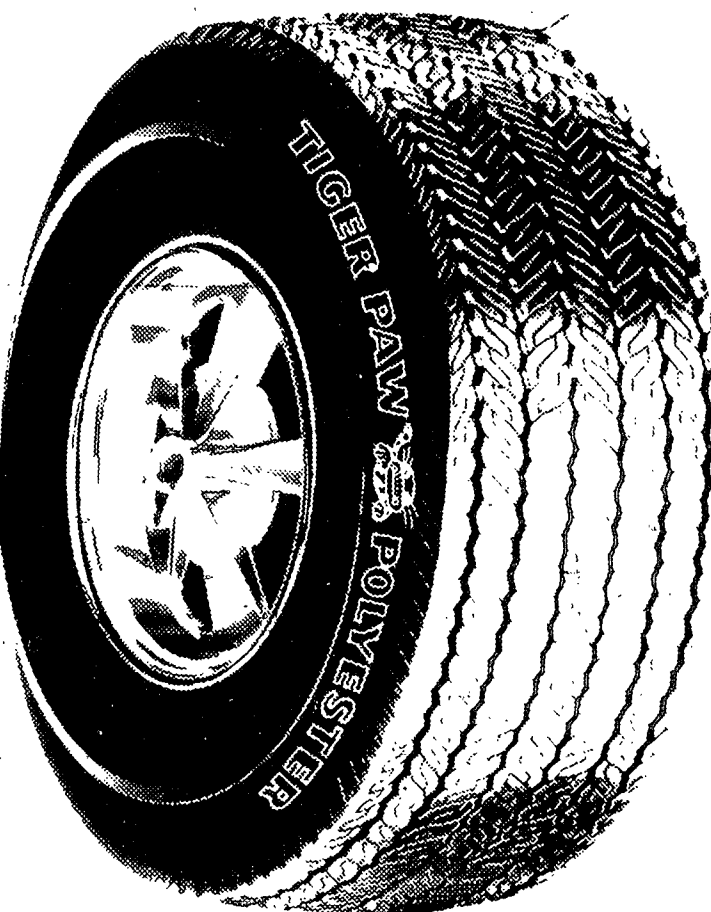

in law enforcement within the park on one occasion, and this dealt with a narcotics incident. The balance of the time Weidman handled all their internal problems, he indicated.

Deputy James Ladner, called for a petition to the governor to be signed by local residents, asking for Weidman's retention. "I will hand carry it through the county,"

Deputy Ladner said.

The sheriff told supervisors he had provided a radio to Weidman permitting the

ranger to stay in constant contact with his office. Should Weidman be moved, he said, he would want the radio back.

### Named Coach of Year

## Stanislaus, Pass coaches honored

Three coaches from St. Stanislaus and another from Pass Christian High School were honored earlier this week when they were named "Coach of the Year" in the Pascagoula River Conference.

Howard Patton and Bill Poole of Saint Stanislaus of Bay St. Louis were named co-coaches of the year in boys track and field at a meeting of Pascagoula River Conference officials Monday at d'Iberville High School.

Bob Rogers of Pass Christian was named coach of the year in girls' track, and Fred Weems of St. Stanislaus was recognized as Pascagoula

River Conference baseball coach of the year.

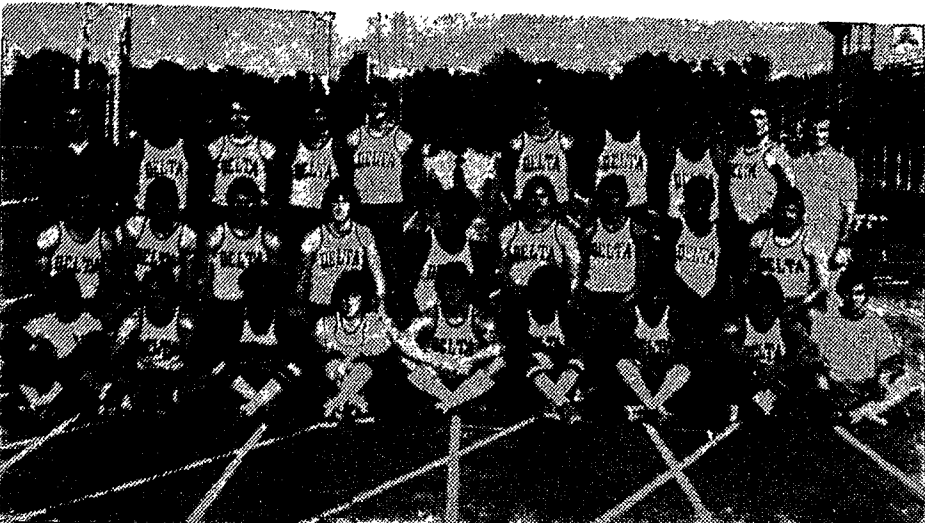

The 1977 All-Pascagoula River Conference baseball team was selected as follows:

Lavon James of East Central and James Woody of St. Martin, catcher; Myron Cook of Pass Christian, and Tim Faggard of East central,

pitchers; Darrell Clark of East Central, first base; Bubba Etherton of Vancleave, second baseman; Pat McCowin of Notre Dame,

third baseman; Henry Malley of Pass Christian, shortstop; Joe Porrier of St. John and Todd Edwards of St. Stanislaus, utility infielders;

Lonnie Fritz of St. Martin, Danny Steele of St. John, Brent Jenkins of Pass Christian, and Don Howze of St. Martin, outfielders.

Members of the 1977 Delta State University track team includes (front row, L-R) Larry Howard (mgr.) of Moss Point, David Dunnigan of Philadelphia, Willie Brooks of Little Rock, Woody Woodall of Jackson, Brady Perry of Jackson, Al Corbet of Miami, Cedrick Jackson of Cleveland, Oton Mestre of Hialeah, Fla., and Sam Macre (mgr.) of Blytheville, Ark. (Second row, L-R) Mario Benna of Biloxi, Charles Carraway of Raymond, Wayne Chance of Purvis, Casey Baker of New Orleans, Wayne Johnson of Cleveland, Ed Porter of Bay St. Louis, Norman Beasley of Jackson, Alex Reese of Lexington, and Sam Piazza of Waveland. (Back row, L-R) Assistant Coach Mike Wolford of Madisonville, Ky., Sam Hopkins of Alexandria, La., Bennie Mikel of Kosciusko, Curtis Robinson of Pascagoula, Chris George of Natchez, Head Coach Reggie Barnes, Scott George of Natchez, Matthew Ford of Clara, Pat Lucas of Rolling Fork, Russell Osborne of Tampa, and Assistant Coach Bill Greenleaf of Philadelphia.

### Green Praises Leaders

James D. Green Supervisor of Itta Bena, Mississippi, presently serving as President of the Mississippi Association of Supervisors, had high praise for the House and Senate leadership in appointing a study committee to look into Mississippi's transportation needs and the State's tax structure.

"The Counties' road systems have long suffered from lack of funds to build and maintain 51,015 miles of rural roads. These roads have contributed to the development of our state and new monies must be generated to complete paving over 28,000 miles of gravel roads and resurface over 4,000 miles of State aid roads," Green stated.

Green further pointed out that "Counties have been weaned since 1966 of any material growth in revenues for County roads, noting that in 1966 the top 20 percent of gasoline tax was given to the highway department before distribution is made and that counties have not participated in the last two raises on the

## Youngsters can win trip to Yankee Stadium

How would you like to win a trip to the All Star Game and be on the field at Yankee Stadium?

How would you like to wear a Major League uniform, which is yours to keep?

Well, these are just a couple of the rewards in store for winning youngsters in Pitch, Hit and Run, Major League Baseball's official youth program, sponsored by Thom McAn, in association with the National Recreation and Park Association (NRPA) and the President's Council on Physical Fitness and Sports.

All any youngster has to do to enter is to pick up a free official entry blank and Tips Book at any Thom McAn store and participating dealer in this area through the end of registration on May 22. No purchase is necessary to enter. All boys and girls from 9 to 12 are eligible for the competition. Tip Books also are available at the local NRPA Competition Site at Jerome's Department Store, 201 Main Street, Bay St. Louis. There will be four levels of competition - local, district, division and the finals on July

19 at the All Star Game at Yankee Stadium. The Commissioner of Baseball will make the trophy presentations on national television.

The selected winning youngsters at the division and final championships, along with their parents, will be guests of Thom McAn. They will be outfitted in replica Major League uniforms. All winners and runnersup receive trophies and patches.

On the local and district levels, winners and runnersup receive plaques and patches following the competition.

The local and district competitions take place at selected NRPA locations in this and adjoining areas. The division competitions will be held at 12 Major League parks and at Aloha Stadium in Hawaii.

### TRYOUTS

Tryouts for the American Legion baseball team, sponsored by the American Legion in Waveland, will be held May 9th, 11th and 13th at Tiger Stadium in Bay St. Louis. The team is open to anyone in Hancock and Pearl River Counties and Pass Christian. Players must have been born after August 1, 1958 and have a certified birth certificate.

## Rhodes paces US team win

"Doc" Rhodes, son of Mr. and Mrs. Nelius Rhodes of 345 Main Street in the Bay, won first place at the Pan American Games Weightlifting contest held in Arlington, Texas, April 29, 30, and May 1.

Rhodes, who had set a new record for himself at the 7th Annual Stanislaus Powerlift meet with a deadlift of 650 lbs,

could only muster 625, but it was good enough to help him win.

Rhodes was the only man from the state of Mississippi to appear in the games.

With his effort the U.S. Team finished in first place in the games.

Rhodes, who now resides in Gulfport, also broke the Pan American Games Bench press record with a press of 355-lbs.

## Backwash

**FLYING SCOT DISTRICTS** - Marc Eagan sailed a beautiful series last weekend to become the new Gulf District Flying Scot Champion. Bay Waveland Yacht Club was host to the 28 boat fleet for the three race series.

Regatta Chairman Woody Santa Cruz and Race Committee Chairman Harry Chapman with the help of many of the members kept everything running smoothly making the weekend a tremendous success.

Marc Eagan with crew Tommy Heausler and John Killeen won the first race by a large margin in a moderate shift southeasterly breeze. Ed Reardon finished second with Greg Reardon and Ford Gaudin crewing. Randy Santa Cruz was third, with crew Elizabeth Santa Cruz and Rod Stieffel.

The wind increased a few knots for the second race in which Santa Cruz moved out to an early lead which he held through the Olympic course to the finish. Danny Killeen was second and Eagan third.

By the final race Sunday morning, the wind had picked up to about 20 knots with strong gusts and heavy seas. More than half the fleet either did not start or did not finish the race due to equipment or crew breakdowns. Kenny Kleinschrodt unwillingly gave up an early lead when his tiller broke and he had to steer with his spinnaker pole.

Ed Reardon contributed a little drama to the finish of the last race. As he approached the finish line in first position and the Race Committee prepared to fire the gun, he fell off of his boat. Fortunately his crew was able to recover him on board in time to maintain his lead, not too easy a task in the rough weather. Cam Bahn finished second and Marc Eagan third.

**Final Standings:**  
Marc Eagan 64; Ed Reardon 104; Randy Santa Cruz 134; Don Brennan 15; Mike Johnson 19; Doug Sansom 21; Danny Killeen 38; Ony Ranee 38; Ed Turnipseed 45; Kenny Kleinschrodt 48; R. Weaver 50; Duncan McLane 52; Rocky Sanchez 52; David Blouin 53; Paul Strauley 56; Mac Hadden 58; C. Wientjes 59; Jerry Dees 59; R. Peraza 60; Bruce Levy 64; Don Chamberlain 67; M. Howell 68; Terry Wright 70; Dwight LeBlanc 76; John Heath 79 and R. White 86.

Cat Island Cruise - May 6, 7 and 8.

Mississippi Coast Yachting Association Regatta at Biloxi Yacht Club - May 7 - 8.

Spring Regatta at Buccaneer Yacht Club, Mobile - May 14-15.

Sunfish Racing at BWYC - Beginning June 1. Five dollar fee payable to BWYC.

## Gazette Program

Genealogy, or the study of family history, and the role of the Mormon Church in genealogy will be the feature topics on Mississippi ETV's "Gazette" at 7 p.m., Monday, May 9.

The program can be seen on channel 29, Jackson. Howard Lett's guest will be Elizabeth Hurst, associate librarian of the National Archives of the Church of Jesus Christ of Latter Day Saints of Salt Lake City, Utah, and Dane Bounds, an elder in the Hattiesburg ward of the Church.

Many trucking firms have been able to increase fuel efficiency by nearly 20 percent by streamlining their tractor-trailer rigs, engine modifications, use of radial tires and high-torque-rise engines.

### THE "EQUALIZATION OF ASSESSMENTS"

In 1974 I voted against the increase in property taxes within the corporate limits of Bay St. Louis as well as those within the entire municipal school district. Taxes within the city limits were increased by \$2,809,977.00, an increase of 36.8 percent; and those within the municipal school district by \$2,067,474.00, an increase of 48.68 percent.

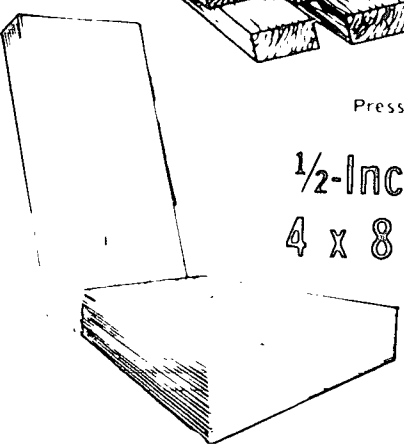

This increase did not "equalize" the tax structure. It actually caused existing inequities in assessments to be increasingly unjust and unfair.

## B-BB tennis title

# Vegas sisters win state championship

By JERRY WHITTLE

Sisters Holly and Ginny Vegas of Coast Episcopal High School in Pass Christian brought home the championship trophy from last

week's B-BB State Tennis Tournament in Jackson. The Vegas sisters, daughters of Mr. and Mrs. Paul Vegas of Bay St. Louis, defeated four other teams in the doubles to win the state

championship. The tournament started on Friday and concluded with the championship match on Saturday. In the finals, the Vegas team defeated OLA's Margaret Spornio and Joan Dickinson, 7-5, 6-7 and 6-4. Other victories were recorded over Smithville, 6-2 and 6-0; Raymond, 6-4 and 6-1; Richton, 6-1 and 6-0.

Holly is a Senior at CEHS and Ginny is a Sophomore. They were runner-ups in the district and gained a berth in the state playoffs.

Two students from Coast Episcopal High School in Pass Christian were state champions in the B-BB state tennis tournament held last weekend at Jackson. Holly (R) and Ginny Vegas were crowned state champions after a final victory over OLA. Holly is a Senior and Ginny is a Sophomore at CEHS.

(ECHO Photo by Jerry Whittle)

## Reading Conference

Many book publishers and other companies are expected to exhibit at the 37th Annual Reading Conference to be held May 7 and 14 and June 4, 11 and 18 at the University of Southern Mississippi.

Theme of this year's conference is "Practical Application in Reading," with three semester hours of graduate credit available, according to Dr. George McIninch, workshop director.

Credit can be used as an elective in the Master of Science of Reading program and for Mississippi state teacher certification.

Exhibitors include the Mississippi Library and Media Supply company,

Coronet Media, EMC Corp., Grollier Instructional Systems, Ginn and Co., The Economy Co., Misco and Encyclopedia Britannica Educational Corp. Nationally known conference speakers will include Curtis Englebright of Southern Illinois University, Paul Kazmieriski of Syracuse University, Robert Jennings of the University of Georgia, Delores Dickerson of the University of Maryland and Patricia Duncan of the University of Georgia.

For additional, contact the Department of Conferences and Workshops, Southern Station, Box 5136, Hattiesburg, Miss. 39401, telephone 266-4265.

## Annual tennis tournament will aid Cancer Society

The Third Annual Cancer Crusade Doubles Tennis Tournament will be held Friday, Saturday and Sunday, May 13, 14 and 15 at the Gulf Hills Inn Racquet Club in Ocean Springs.

The Tournament will have two divisions, Men's and Women's. Entry fee is \$100 per team and is a contribution to the American Cancer Society.

According to Tournament Chairmen Mitchell Salloum, Jr., Mrs. Joe Meadows and Leroy Urie, sixty sponsors have already signed for the event with an equal distribution between the two divisions.

Sponsors and teams will be invited to a social hour Saturday evening at Gulf Hills. Prizes and trophies will be awarded to the winners and

runners-up in each division. There will also be a consolation round played.

Bob Stock, Tennis Pro at Gulf Hills, is in charge of the draw and tournament play.

The deadline for entry is Monday, May 9. Anyone interested in sponsoring a team or playing in the tournament may contact the American Cancer Society in Gulfport for more information.

Mrs. Fred Wagner (L) of Bay St. Louis and Mrs. John Underwood of Pass Christian, display bumper stickers used to promote the Third Annual Cancer Crusade Doubles Tennis Tournament to be played May 13, 14 and 15 at Gulf Hills Inn Racquet Club in Ocean Springs. The Tournament features a Men's and Women's Division and will benefit the American Cancer Society.

## Ms. Petroleum Council Sets Convention Dates

Energy, natural gas and deregulation of government price controls; petroleum industry divestiture, and a message of inspiration to Mississippi businessmen are key topics that will be addressed by a slate of highly qualified experts at the Mississippi Petroleum Council's annual convention scheduled for May 12-14 at the Broadwater Beach Hotel in Biloxi.

MPC Executive Committee Chairman E.L. Cralle said, "This important meeting will be the first such meeting in Mississippi devoted to energy, since the announcement of President Carter's energy plan. The meeting will provide a forum for oil and gas industry representatives, state officials, news media personnel, and representatives of energy-related businesses and utilities to hear experts ad-

dress a variety of energy issues."

In addition to these issues to be discussed at the May 13 morning business session, Mississippi Congressman G.V. "Sonny" Montgomery will be a special guest at the evening banquet and will introduce Congressman Jim Wright of Texas, majority leader of the U.S. House of Representatives, who will address the group on "Energy Expectations from the 95th Congress." The afternoon session preceding the banquet will be devoted to anticipated state legislation concerning the oil and gas industry, Mississippi's highway program, and coastal zone management in Mississippi.

Headlining the morning session along with Commissioner John H. Holloman, III, of the Federal Power Commission, is James L. Johnston, Jr., senior economist with Standard Oil (Indiana). Owen Cooper of Yazoo City, past president of the Mississippi Chemical Corporation and the Southern Baptist Convention, will address the group at the luncheon session.

The Mississippi Petroleum Council is an industry trade association representing oil companies operating in Mississippi. Chairman Cralle said for further information concerning the energy meeting, contact the MPC office in Jackson.

## Anyone for Tennyson

Stage and television star Fred Gwynne joins the cast of ETV's "Anyone for Tennyson?" in a frolicking program devoted to the works of the most prolific of all poets - the famous Anonymous.

"A Tribute to Anonymous" can be seen at 2:30 p.m., Saturday, May 7, on the Mississippi Educational Television Network channel 29, Jackson.

Of almost any nationality and perhaps the best storyteller of all time, Anonymous wrote many of the great traditional ballads. And, as Fred Gwynne is heard to observe, it is interesting how often the women get the better of the men in Anonymous ballads: Frankie shoots Johnny, Barbara Allen lets her lover die of neglect, Lord Randal is poisoned by his girlfriend and May Colvin throws Sir John in the sea.

The search for the identity of the mysterious Anonymous is set in a theatrical green room at the Hartford Stage Company (Hartford, Conn.).

"You, The Supervisor"

"You, The Supervisor;" the ETV series designed to help the supervisor come to grips with his day-to-day problems of planning and organizing the work of others, will begin again on Mississippi ETV the week of May 9.

## Speakers

## Named For Graduation

The Secretary of Labor of the United States and a Bishop of the United Methodist Church will be the featured speakers during the May 15 Commencement Weekend ceremonies at Millsaps College.

Dr. Ray Marshall, who was professor of economics at the University of Texas at Austin before his appointment to the Cabinet post, will address the graduates at the 5:30 p.m. Sunday, May 15 commencement exercises on the campus. Bishop Joel McDavid, resident bishop of the Florida Area of the United Methodist Church, will speak during Baccalaureate services at Galloway Memorial United Methodist Church at 10:50 a.m., Sunday.

One hundred and eighty-eight seniors are candidates for degrees which will be conferred at the graduation exercises Sunday afternoon. Honorary degrees will be given Dr. Marshall and Bishop McDavid. Marshall, a 1949 graduate of Millsaps, will receive the degree of Doctor of Laws and McDavid, who graduated in 1941, will receive the Doctor of Divinity degree.

Other events of Commencement Week will be alumni and parents golf and tennis tournaments on May 10. Additional President's Breakfast for seniors and their families, Sunday, May 15; and the awarding of medals and prizes at the Commencement exercise Sunday afternoon.

## Proclamation

A PROCLAMATION DECLARING MAY AS BETTER HEARING AND SPEECH MONTH IN THE CITIES OF BAY ST. LOUIS, WAVELAND AND HANCOCK COUNTY

WHEREAS, one of the hallmarks of a truly civilized nation is the efforts it makes on behalf of its handicapped citizens; and

WHEREAS, communication is the cohesive force in every human culture and a dominant influence in the personal life of every one of us; and more than ten percent of all children and adults in the United States have speech, language or hearing impairments so severe that their educational, vocational, personal and social functioning are adversely affected; and

WHEREAS, members of the speech pathology and audiology profession strive to restore or improve communicative competence so that those with speech, language or hearing disorders can regain and maintain a meaningful and productive place in our society; and

WHEREAS, the Cities of Bay St. Louis, Waveland and Hancock County are aware of and concerned for the high level of speech pathology and audiology services available to communicatively-handicapped persons in schools, rehabilitation centers, hospitals, speech and hearing clinics and private practice offices;

NOW, THEREFORE, We, Warren Carver, Mayor of the City of Bay St. Louis, John Longo, Mayor of the City of Waveland and Alton A. Kellar, President of the Hancock County Board of Supervisors, do hereby proclaim May 1977 as Better Hearing and Speech Month in Bay St. Louis, Waveland and Hancock County and we commend and endorse the humanitarian and rehabilitative services rendered by speech-language pathologists and audiologists throughout the city to our communicatively-impaired citizens.

Signed:  
Warren Carver, Mayor  
City of Bay St. Louis

John Longo, Mayor  
City of Waveland

Alton A. Kellar, President of the Hancock County Board of Supervisors

Soybean stocks in all storage positions in Mississippi on April 1, totaled 20,280,000 bushels, 40 percent less than a year earlier, the Mississippi Crop and Livestock Reporting Service announced today. On-farm stock totaled 6,435,000 bushels, accounting for 32 percent of the total soybean stocks. Soybean stocks stored off-farm totaled 13,845,00 bushels.

**UM SCIENCE EDUCATORS ATTEND CONVENTION**  
Three Ole Miss science educators recently attended the National Science Teachers Association in Cincinnati where they heard outstanding scientists such as Dr. Jonas Salk and Dr. Margaret Mead. The UM faculty members were Dr. Harold Crater, physics, Dr. Harold Hein, secondary education, and Dr. Sterling Smith, biology.

## Bid advertisements started for project

BY JERRY WHITTE

The Bay St. Louis City Council was presented the bid forms for advertisement on the Main Street Project at their regular meeting on Monday, May 2nd by John Holgrove of Burk and Associates of New Orleans. The advertisements for bids, which appear in today's issue of the ECHO, will be published for three weeks and bids will be open on Monday, May 30th.

BSL attorney William Frisbie met with the council to discuss two matters of importance to the city. The first concerned what Frisbie termed, "an out of line" assessment against A&P Co. and asked for a review of the matter by the council. A decision on the subject is expected at the next meeting of the council. Frisbie also notified the council of a hearing today (Thursday) at 10 a.m. concerning the method used to sell a portion of property in the city for taxes due.

Two representatives from RSVP requested written approval of the city's part in funding the program. The city has approved funding and the ladies were asking for a written report for their records. Eddie Englehorn was instructed to write a letter to RSVP confirming the city's willingness to participate in the program. The council was also invited to open house on Wednesday at the local facility.

Police Chief Douglas Williams and Assistant Chief Emmett Ellis met with the council to file a report concerning the tornado which struck a portion of the city on Monday morning. Chief Williams reported no injuries and no major damage other than the destruction of the Robinson Chapel Church on Washington Street. He also reported on a tug boat which was half sunk in the Bay last weekend near the St. Stanislaus pier and stated the ownership of the boat was being checked by officials. Fire Chief Greg Richardson, who was also present, reported his department was holding a 14 foot boat that was found last weekend in the Bay.

City Planning and Zoning Commission Chairman J. Alvin Triche Jr. presented a request from his group asking the council to approve a change in the planning and zoning laws to allow special exceptions to come before the Board of Adjustment. Following discussion, Commissioner Lucien Kidd made the motion to approve the change, seconded by Commissioner Larry Bennett, and an unanimous vote followed.

Triche also reported a large city map was near completion and another copy would be finished soon. One copy will be given to the building inspector and the other will remain at city hall.

In the matter of the suspended firemen, who reportedly walked off the job almost two weeks ago, Mayor Warren Carver stated the men were under suspension for 15 days and felt only one of the men would return after the time period elapsed. Chief Richardson said he had talked with the other two men and they had told him they would not return unless there were some drastic changes made in the department. Carver said the two men had asked for a raise or either a change in the radio situation. The mayor said the objects under which the men walked off centered around their having to man the police radio at certain times. Mayor Carver said he did not think the arrangement was asking too much of the fire department personnel and there would be no change in the method of operation.

Commissioners Bennett and Kidd questioned both the assistance with the mayor and fire chief as to a procurement of professional time limit for manning the examinations and corrective police radio by firemen, visual and hearing problem saying they thought when the devices, such as hearing aids arrangement was first set up and spectacles.

It would be on a temporary basis. However, the mayor and chief said there had been no time period stated and the arrangement was to be per-

manent. In other business, the council made \$50 donations to both the Bay High and St. Stanislaus bands for trips planned; voted \$37.50 toward a Boy Scout Troop sponsored by the fire department; donated \$50 to the American Legion Auxiliary Girls State; noted the mobile home on Green

Meadow Road has been moved; tabled action concerning a fence on city property on Carroll Ave.; tabled action for repairs to the approach of the Ulman Ave. pier; lowered the redemptions from 10 percent to five percent for property sold for tax purposes (this is now in line with state law).

## School board hears special ed report

BY JAKE JACOB

Students in special education classes must be placed into the least restrictive environment, Herman White, state department of education, told the Hancock County School Board on Monday, when invited to speak at their meeting in the Youth Court Building. White said all children have the right to equal opportunity in education. He indicated that without closing the special education school in Clermont Harbor and "mainlining" those students onto their regular campus, the Hancock system will continue to deny this right to some of the charges.

The special education office reported that most children were in special education, because they could not perform in the regular classroom. He said special education students must be absorbed into the main system or would be a withholding of federal and state funds.

The State of Mississippi will help as much as it can, he allowed and drew comparison to the ever changing attitudes towards people with problems. "People who were previously confined to retardation centers and mental health facilities are now at home," he said.

The Charles B. Murphy Elementary School in Pearlinton has earned the highest accreditation the state can bestow, James Baldree, principal, told his board. He said the school has been designated Class AA - with no qualifications.

Baldree said his unit had held the accreditation for several years and allowed the school is also accredited by the Southern Association of Colleges and Schools.

The school system's nurse, Evelyn Jacob, RN, asked to give a report on her year's activities, said that budget restrictions had limited her to visiting each school one day a week, although I have tried to go a little more often to North Central.

She said she had seen 884 children, for illness and injuries, during the school year so far and, in addition, made several home visits in relation to her charges, and conducted eye and ear testing.

Nurse Jacob said that both head lice and scabies had made their appearance in the system during the year resulting in a need to constantly monitor children showing signs of "active discomfort."

She said the very size of North Central School, a unit situated in a remote area of the county away from other medical assistance, meant a steady flow of children coming to see her concerning a great range of childhood complaints. "With just one day a week at this enormous school I found it impossible to put in a complete program."

"Last year I was at the school daily and had a nurses aide program in operation. I have examined eyes and ears in the primary grades of all three schools, C. B. Murphy, Gulfview, and North Central, but I am at a loss to know where else to turn to get Kidd questioned both the assistance with the mayor and fire chief as to a procurement of professional time limit for manning the examinations and corrective police radio by firemen, visual and hearing problem saying they thought when the devices, such as hearing aids arrangement was first set up and spectacles.

are just not able to afford these things." President Monvel Cuevas asked the nurse whether or not the system had any needs.

She replied, "some of the things we need are: - to show teachers how to check for head lice and scabies; - to provide some sort of space at North Central for a nurse; - to provide a place for children to lie down when they are sick instead of having to hold them on our laps with temperatures of 103 or 104, like we had to do during the flu epidemic, this, as we had no where to go and it was only through the courtesy of the drug program supervisor letting me use his office that we have a door, that I could work at all: - to provide for some sort of hot water at North Central for the children to wash in, especially during cold weather - this is simple sanitation;

- to teach some course of sex responsibility using materials available from the state and through other such agencies. "Most of the parents are concerned about their children but there are enough of the other kind to make you want to cry."

"We have had to take children off the bus too sick to go to class, while at other times we have had to scrub them before they could enter a classroom."

The nurse also deplored the loss of medical supplies, many she classes as irreplaceable; at North Central School particularly all those things left in her former quarters now taken over for classroom space.

"Nobody knows where these things went. I tried and tried all last year to teach dental health and finally managed to get in a load of toothbrushes and toothpaste for distribution to grade one this year."

"During the summer these were all stolen and our efforts went to naught. She later stressed the value of prompt teacher reports concerning a child's apparent lack of learning skills, or fall-off of learning ability, reaching the school nurse to enable her to undertake provisional hearing and eyesight examinations.

"I dread the thought that some child, who is generally trying as hard as he or she knows how, being classes as a 'dummy' when in effect they have a hearing or eyesight problem," she said.

American farmers are stepping up their use of herbicides to control weeds, and the era of hoeing and cultivating is about over. Once the results of herbicide use is saved energy. These chemical "weeder" have reduced the cost of cultivation by 50 percent on some 160 million acres of U.S. farmland.

Annual state and federal highway user taxes for a typical heavy truck range from \$1,834 for a 3-axle tractor trailer to \$3,941 paid by a 5-axle truck and trailer. On the average, state and federal use taxes paid by one large truck equals taxes paid by 36 passenger cars.

When you have to re-hem a garment, carefully unravel the old hem and use the thread that is salvaged to put in the new one. The thread will not tangle if you rub it with beeswax before sewing. Beeswax may be bought at fabric shops along with other notions.

## Legal notices

### CHANCERY SUMMONS

NO. 12,041  
STATE OF MISSISSIPPI  
To Jarquin Wyatt Graham  
You are summoned to appear before the Chancery Court of the County of Hancock, in said State, on or before the 27 day of June A.D. 1977, to defend the suit No. 12,041 in said Court of Robert W. Wyatt, Jr., Executor, and to show cause why the First and Final Account in the Estate of Robert W. Wyatt, Deceased should not be approved. This hearing is set for 2:30 p.m. on June 28, 1977 at Harrison County Courthouse in Gulfport, Miss., wherein you are a defendant.  
This 3 day of May, A.D. 1977.  
(SEAL) John D. Rutherford, Jr., Chancery Clerk,  
By: Sheryl Cummings, D.C.  
5-5, 5-12, 5-19, 5-26-77

### YOUTH COURT SUMMONS

CAUSE NO. YC53  
THE STATE OF MISSISSIPPI  
To Freda Mison  
You are summoned to appear before the Youth Court of the County of Hancock in said State, at the Hancock County Courthouse, Bay St. Louis, Mississippi, on the 11 day of May, 1977, at 10:00 o'clock a.m. to show cause why the child described in said Cause should not be adjudged a Battered child and for such other relief as to the Court may seem proper for the best interest of said child, wherein you are a respondent.  
This 28 day of April, A.D. 1977.  
(SEAL) John D. Rutherford, Jr., Youth Court Clerk  
By: Sheryl Cummings, D.C.  
5-5-77

### NOTICE TO CONTRACTORS

Sealed bids will be received by the Board of Supervisors of Hancock County in Bay St. Louis, Mississippi until 10:00 a.m. on June 7, 1977 and shortly thereafter publicly opened for base preparation and surfacing for the following roads: 1.06 miles of the Beech Road; 1.06 miles of the Arnold Lader Road and 0.53 miles of the Leslie Dadeaux Road.  
Payment for the work may be made from Revenue Sharing Funds; therefore all conditions in the proposal and all of those applicable to the expenditure of revenue sharing funds shall be complied with.  
The award or awards, if made, will be to the lowest qualified bidder on the basis of published quantities on each individual road.  
Plans and specifications are on file in the offices of the Hancock County Chancery Clerk and Broadway and Seal, Piquayune, Mississippi. Plans and proposals may be secured upon the payment of \$15.00, none of which is refundable.  
Certified check or bid bond for 5 percent of the total bid payable to Hancock County must accompany each proposal. Bidders may bid on any or all of proposed roads.  
The Board reserves the right to reject any or all bids.  
Published by order of the Board of Supervisors dated May 2, 1977.  
John D. Rutherford, Jr., Clerk  
Board of Supervisors  
Hancock County, Mississippi  
5-5, 5-12, 5-19-77

### Mayor's Proclamation

WHEREAS, The citizens of this city are extremely proud of this Nations 200 year Heritage of Freedom and are loyal to the ideals, traditions and institutions which have made our nation so great, and

WHEREAS, Their obvious dedication to our way of life is indicative of a strong, continued desire to preserve the priceless American heritage, and

WHEREAS, They will be proud to stand up and publicly declare their determination toward actively and positively safeguarding our freedoms against any foreign or domestic enemies, now

THEREFORE, We, Warren Carver and John Longo, Jr., Mayors of the Cities of Bay St. Louis and Waveland so hereby call upon all our fellow citizens to take full advantage of the special occasion known as LOYALTY DAY, celebrated annually throughout the nation on the first day of May, as an incentive for every true American to reaffirm his and her love of flag and country, and we do urge that all individuals, schools, churches, organizations, business establishments and homes within our official jurisdiction display proudly the Flag of the United States of America and participate in public patriotic Loyalty Day activities which are to be co-sponsored by the Veterans of Foreign Wars of the United States, and others, on LOYALTY DAY, May 1, 1977.

Tornado damage scenes

(Continued from Page 1)

### Tornado

Street seemed to have received the most damage of any home in the immediate area. Benoit said he had a 2x4 thrown from the church into his house in addition to roof and window damage. Benoit, a member of the Bay St. Louis Police Department, told an ECHO reporter that the twister struck "about 6:30 a.m." The policeman said, "It only lasted a few minutes and I just had time enough to grab my children and get down on the floor. I heard a sound like a freight train and looked out the back window, everything looked white and then it hit." The Benoit home is located in the next block just to the northeast of the church.

### PROCLAMATION

WHEREAS, the annual observance of OLDER AMERICANS MONTH during this month of May again provides all members of the American Association of Retired Persons with a singular opportunity to highlight the substantive achievements of Older Americans and, at the same time, to dramatize their concerns and future goals; and,

WHEREAS, through their efforts, we can look forward to a period of even stronger economic and social gains, which ultimately will bring greater dignity, independence and purpose to all Older Americans;

THEREFORE, WE, THE UNDERSIGNED do hereby declare the month of May "OLDER AMERICANS MONTH" in honor of the Older Americans living in Hancock County . . . your neighbors . . . your friends.

Signed:

AGES 9 UP - JANET ROCHE, TEACHER

The following are some of the improvements that I feel are long over due for our city. If elected I will do everything possible to implement the following programs.

- ☒ A diligent effort to reduce taxes
- ☒ A well planned drainage system
- ☒ A planned street repair program (not a patch job)
- ☒ A more efficient Police department
- ☒ Better fire protection
- ☒ At least 1 centrally located City Park
- ☒ A year round recreation program for our youth and continued support for our Senior Citizens
- ☒ A city wide year round beautification program
- ☒ I will make every effort to extend all city facilities to the annexed area

If you want progress not promises  
then I sincerely ask that you elect

## School board approves calendar for 1977-78

BY JAKE JACOB

Hancock County's school system calendar for 1977-78 is allowing five days for even-  
tualities of sufficient worth to  
force school closing.

Needing 175 classroom days  
to qualify for a full school  
year, the calendar shows  
registration on Aug. 19, with  
actual classes commencing  
Monday, Aug. 22. Graduation  
is set for Thursday, May 19,  
1978.

This schedule accounts for  
180 days, five over the legal

(Continued from Page 1)

excessive clamshell dust on  
the approach road to Marine  
Concrete Products.

Hockett Sandblasting of  
Florida, has announced its  
intention to begin operations  
at the former Jackson Lan-  
ding Shipyard site almost  
immediately, after delivering  
the first payment to the  
commission.

In other matters, super-  
visors heard that the census  
bureau was preparing to begin  
on the new county headcount;  
accepted specifications from  
Fred Wagner, architect,  
concerning the courthouse  
roofing project; proclaimed  
the month of May as Older  
American Citizens Month;

accepted the resignation of  
Ames Kergosien from the  
Gulf Regional Planning  
Commission, and appointed  
John Scaife, Jr., in his stead;

agreed to pay for eight signs  
reading "A clean beach is  
more fun" to be posted along  
the seaford from Clermont  
Harbor to Jourdan River  
under a project sponsored by  
the Bay-Waveland Garden  
Club; voted to request the  
superintendent of education to  
produce his telephone log  
after hearing his long distance  
calls for this month were  
almost double that of the  
entire courthouse, \$416.03 vs.  
\$26.83; moved to advertise for  
bids on paving some two and a  
half miles of Beech Road in  
Beat 3, the cost to be split  
between revenue sharing and  
road and bridge funds; set the  
civil defense director's salary  
at \$643 per month and that of  
his assistant at \$436, in ac-  
cordance with a letter making  
such recommendations  
received from the state; went  
on record supporting the  
application of Spanish Trail  
Lodge Nursing Home to be  
permitted to construct a 120  
bed facility in Waveland;

decided to allocate one or  
more Cedar Program workers  
to Henry Otis, circuit clerk  
and voter registrar, to type up  
a new set of poll books, the  
existing volumes having been  
filled.

And these piping hot foods,  
and beer and coffee and  
heavy liquor intake. They may  
cause changes in your mouth  
that could lead to cancer.  
Don't forget a regular dental  
checkup since it's easy for  
dentist to spot oral  
cancer. When treated very  
early, oral cancer is usually  
curable, says the American  
Cancer Society.

As these little pigs are going to  
be sold, and that means more  
pigs, roasts and hams  
in supermarkets. Ex-  
perts say after ex-  
tensive low supplies in 1975  
and 1976, pork production is  
on the rise.

As an aside, Penton told the  
board his school had also  
received an AA rating from  
the state, meaning it  
couldn't go any higher  
than it is today.

He said that although he is  
to be transferred to  
Pearlington he is still in-  
terested in all the schools and  
their programs.

"Do not regress - progress,"  
he implored of his board.

requirement.

Holidays are provided for  
Labor Day, All Saints,  
Thanksgiving, Christmas,  
Mardi Gras, and the MAE  
Convention.

The schedule was accepted  
by trustees Monday although  
the best method to solve  
disciplinary difficulties at one  
of their schools was again the  
subject of considerable  
controversy.

Education Superintendent  
Terrell Randolph asked for  
the appointment of Edward  
Leonard into a previously non-  
created position as Science  
Teacher and Assistant  
Principal at Hancock North  
Central, with special duties to  
concentrate on discipline  
enforcement inside the junior  
high.

Also taken under ad-  
visement was a letter from  
James O'Hara, principal at  
North Central, recommending  
Coach Roland Ladner be  
named athletic director for  
the purpose of coordinating all  
programs at the school.

The recommendation would  
also make Ladner responsible  
for inventory, concessions,  
and gate funds, with a mon-

thly report of the status of  
each to be given to principal.

This recommendation arose  
from a meeting staged be-  
tween the board and the  
coaches last month prior to  
the signing of new contracts.

Security at the north county  
educational plant was the next  
topic after trustees learned of  
the loss of five IBM selectric  
typewriters over the weekend  
from the school's business  
department.

Originally having 22, the  
department sustained two  
other thefts, resulting in the

loss of three machines the first  
time, and two the second,  
reducing their inventory to  
120. Of these five are broken,  
leaving only seven machines  
to carry all the classes.

Students have been split into  
three groups, with one  
working on the machines at all  
times.

Among the suggestions  
advanced for additional  
security were: installation of  
new locks throughout; hiring  
of patrols; installation of  
guard dogs within the schools;  
installation of burglar alarms.

On the first pass, Trustee  
Oris Ladner of Beat One first  
held his vote, Louie and  
Woodrow Ladner voted in  
favor; with Banks and  
Cuevas, in a roll call vote,  
casting their ballot against; an  
act then enjoined by Oris  
Ladner.

Following further  
discussion, Oris Ladner called  
for reconsideration and then  
that they take the matter  
under advisement. Both these  
motions were entered into the  
minute book as having passed  
on a three to two tally, the  
three Ladners voting yes with  
Banks and Cuevas saying no.

Also taken under ad-  
visement was a letter from

# The Sea Coast Echo

SEA COAST ECHO, MAY 5, 1977-1C

## Hadden gets

### Dean's Award

Evans McLellan Hadden, son of Mr. and Mrs. Richard Hadden of Pass Christian and a senior in the Tulane University School of Engineering, was presented a Dean's Award for a 4.0 straight A average during seven semesters of his academic career. Presentation was made during the school's recent awards ceremonies. Hadden, a graduate of St. Stanislaus High School, graduates from Tulane May 14.

### St. Ann's

#### FINAL WEEK

Next week will be the final week for religion classes, grades 1 through 12, according to Sister Daniel Elizabeth.

#### ASCENSION MASS

Father Canistius Hayes, pastor of St. Ann's Parish, announced Mass on Ascension Thursday, May 19, will be at 9 a.m. at St. John's Church, Lakeshore, and at 7:30 p.m. at St. Ann's.

Tickets, at \$6 per couple, for the pre-fair dance scheduled for Friday, May 20, are now available and can be purchased from committee chairmen Mr. and Mrs. Gerard Boos, Mr. and Mrs. John Everard, Mrs. Linda Curet or Mark Blackledge.

The dance will be held in St. Ann's parish hall from 8:30 p.m. to 12:30 with music by Bo and Dee.

## on the side

By BUDDY STONE

Top of the day to all CB'ers out there in radioland. I have mentioned in the last couple of columns of On The Side that there was a community radio-watch program that was trying to be started here in Hancock County area. Well no one has taken interest in this program so in a couple of weeks or months it may be discontinued. The objective of CRW members is to observe and report anything unusually unfamiliar, to the base station, and from there to the police or fire dept's. Due to the lack of interest CB'ers now may be relying on HERO and REACT.

Did you know that in our local area channel 9 is turning out to be just another channel? According to FCC Part 95 Channel 9 is for emergency use only, and that's nation wide not just in our local area. The last penalty that I have heard of for improper use of the CB was two years in jail and or \$10,000 fine.

Is anyone having trouble getting their radio converted into a 40 channel? Now, I'm only talking to those who bought radios last year and understood that they could have it converted. Well, write to Richard Kelly, Federal Trade Commission, Bureau of Consumer Protection, Division of Compliance, Washington, D.C. 20580.

Not only do you hear people misusing channel 9, but all channels. I am not complaining, because when we got our license we agreed to bear with everything that happens, but it gets to a point where you can't stand it any longer. That's right, right now just about every AM channel on the CB is being misused. And, there is only one way we can get it straightened out. We can tell the people they are doing something wrong or we can write, the FCC office in New Orleans.

Got CB questions? Write me and I'll try and answer them in this column. My address is 135 Lanai Village, Rte No. 1, Diamondhead, Bay St. Louis, Ms. 39528. I may not be able to answer everyone's questions, but I will try my best at having them put in this column.

Lots of luck and happy CB'ing to your house from mine.

## American Cancer Society plans benefit Silver Tea

The American Cancer Society is holding a special benefit Silver Tea at the Coast District Office located at 135 Courthouse Road on Saturday, May 7, from 3 to 5 p.m. The coast office is housed in the historic old Mississippi City Courthouse.

The building is owned by the Joe Graham Post of the American Legion and is on loan to the Cancer Society.

The silver tea will provide the public an opportunity to visit this historic site and see the materials and equipment available from the American Cancer Society. Also some of the original furnishings from

the old Court house will be on display.

Mrs. Julie Pigott is serving as Chairman for the benefit and Mrs. John T. Hazard is assisting.

Harrison County Crusade Chairman Leroy Urie and Mrs. Urie along with Co-Chairman James L. "Sandy" Rogers and Mrs. Rogers will be hosts and hostesses for the afternoon.

Dr. Charles N. Floyd, President of the Harrison County Unit of the American Cancer Society, will act as Master of Ceremonies. Members of the Gulfport Junior Auxiliary and Gulfport Senior Citizens Club will serve as senior hostesses. Representatives from the Cotillion and Mademoiselle Social Clubs will serve as junior hostesses.

Other women's clubs in the area are providing refresh-

ments. Mrs. Richard Whited, chairman for entertainment, said that groups have been invited to provide continuous entertainment on the grounds and that the Skylarks from Keesler will be one of the featured groups.

The souvenir programs will have a reprint of an original pencil drawing of the old courthouse done by Josephine Alfonso. The programs are being printed courtesy of the Coast District Five Nurses Association.

The American Cancer Society's Coast District Office serves a six county area. Through this office, equipment and services are available for cancer patients, films and materials are loaned for educational programs for youth and adults, and information about cancer and the Cancer Society are given upon request.

Proceeds from the tea will be credited to the American Cancer Society Crusade.

## Students present program

The Sodality of Our Lady of St. Clare's Church will present its monthly meeting April 28 in parish hall.

Prior to the meeting several students from St. Clare's School, under the direction of Sister Mary Jane, O.P., presented the story of the Miraculous Medal.

During the business session, conducted by Mrs. Eugene Dornain, prefect, reports were given by Mrs. Robert Mendow, recording secretary; Mrs. Adrien Chagnard, treasurer; Mrs. Leslie Galivan, corresponding secretary, and Mrs. Edward Canady, publicity Mrs. Galivan was appointed chairman for the May luncheon and social.

Mrs. William J. Vestal and Mrs. Conrad LeBlanc, new members, were introduced by Mrs. William Kietly, membership chairman. Mrs. William Fank of St. Louis, Mo., was a guest of the group. Mrs. Kietly hosted the social hour.

### May convention

The Mississippi Petroleum Council will hold its second annual convention in Biloxi at the Broadwater Beach Hotel with a business session Friday, May 13.

Most importantly, however, is the fact that this meeting will be devoted to the critical subject of energy and other related topics.

Majority Leader of the U.S. Congress, Representative Jim Wright of Texas, will address the banquet session.

# battling the big guys

Many of my close friends and customers have asked how it's possible for me to compete with all the major brand gas stations that are owned or controlled by the big oil companies.

The answer is simple: I buy directly from a big independent oil company... Murphy Oil.

Now, Murphy Oil is not nearly as big as Shell, Exxon, Texaco, Mobil and the other huge international oil companies... but Murphy Oil is no small potatoes, either!

Murphy Oil is an independent company that's a leader in off-shore drilling, undersea exploration, and produces oil around the world. They also operate their own refineries to make gasoline for us independent dealers who sell Spur gas.

Nice thing about Murphy Oil being big, (but not too big) is that they make a top quality gasoline and sell it directly to me without going through a middleman.

So to my close friends and customers: Don't worry about me. As long as Murphy Oil can help me keep the prices down at the pump by selling to me directly... I'll keep selling you Spur.

**MURPHY**

Keeping the independents, independent

## Michelle Crull to take part in UM's Science Training

Michelle Crull, daughter of Mr. and Mrs. Roger A. Crull, 903 Spanish Acres, Bay St. Louis, has been invited to participate in the Student Science Training Program in Mathematics.

Thirty students were chosen to participate in this program which will be held from June 5 through July 8, at the University of Mississippi.

The program is made possible by a National Science Foundation Grant which underwrites the cost of instruction in the program. Students provide for their room and meals at the University, however, Miss Crull has also been awarded a \$25 scholarship towards her expenses.

She is a member of the National Honor Society, the French Club and the Bay High "Tigerettes" basketball team.

MICHELLE CRULL

### VA Affairs

If you're a student receiving veterans benefits, plan ahead. You'll have to wait longer than usual between checks.

More than 1.5 million veterans, dependents and service members are affected by a change in payment dates announced by the Veterans Administration.

In the past, checks were issued on the first of the month. Now, the VA will send them out at the end of the month. That means a one-time, two-month gap in payments.

Students will get their May checks, as usual, on or about the first of the month. The next checks will arrive at the end of June. After that, checks will arrive once a month, but at the end, instead of the beginning, of the period.

### SOYBEAN ACREAGE

Soybean prospective plantings, as of April 1, 1977, are expected to total a new record high of 3,650,000 acres, up 9 percent from the 3,335,000 acres planted in 1976. This is 150,000 acres above the January 1, 1977 intentions estimate.

## DID YOU KNOW - ? Commencement

scheduled at

William Carey

After Hurricane Camille, 3,548 (three thousand five hundred and forty eight) families were assisted in Hancock County, Miss., and \$2,250,000 (two million two hundred and fifty thousand) was expended by the Red Cross in this county. There are 3,200 (three thousand two hundred) Red Cross chapters in the USA.

Hancock County contributes \$8,000 (six thousand) to Red Cross each year. Of this, \$4,000 (four thousand) is given through United Fund, which leaves a deficit of \$2,000 (two thousand).

To join the Hancock County Chapter of the American Red Cross, contact Mrs. Thelma Kergosien, Chapter Executive, Hancock County Chapter, American Red Cross, P.O. Box 149, Bay St. Louis, Miss.

**Registration**  
**slated for**  
**June 6 at USM**

Registration for the summer quarter at the University of Southern Mississippi-Gulf Park will begin Monday, June 6, announced Gwinn Naderhoff, director of records and admissions.

Registration will be at three locations per the following:

At Keesler AFB, Vandenberg Hall, Monday, June 6, from 9 a.m. to 1 p.m.; at Jackson County Resident Center, Cafeteria, Monday, June 6, from 1 p.m. to 5 p.m.; and at Long Beach, St. Thomas Gymnasium, Tuesday, June 7, from 1-7 p.m.

Students may register for all courses at any of the three locations.

Late registration will be accepted in the registrars' offices at Gulf Park and Jackson County Resident Center only from 1-5 p.m., Wednesday, June 8 through Wednesday, June 15, excluding Saturday and Sunday. Class will be from June 8 through Aug. 17.

**Flea market**  
**will be held**  
**on May 12th**

The Canton Flea Market, Mississippi's original arts and crafts show and sale, will be held Thursday, May 12, on the grounds of the Madison County Courthouse in Canton. The art show, held twice each year since 1964, draws a crowd of some 20,000 visitors to Canton to view the works of the leading artisans of the Mid-South.

Artists and craftsmen, participate by invitation only, and a total of 300 will attend this May Flea Market, according to the chairman, Mrs. Don Holder.

All types of artwork will be included in the Flea Market displays, Mrs. Holder said - including oil, acrylic and watercolor paintings, pen and ink sketches, pencil drawings, decoupage and pastels.

The crafts will include handpainted china, handmade jewelry, ceramics, leatherwork, stained glass art, and various forms of needlework and stitchery.

### COTTON PLANTING

As of April 1, Mississippi farmers reported intentions to plant 1,450,000 acres of cotton in 1977, 30,000 acres below the January 1, 1977 estimate. If these intentions are realized, acreage planted in 1977 would be 7 percent below the 1,560,000 acres planted in 1976.

### In Service

Navy Airman Recruit Stephen J. Landy, son of Mr. and Mrs. Donald H. Landry of P.O. Box 311, Kiln, has completed recruit training at the Naval Training Center, Orlando.

During the eight-week training cycle, trainees studied general military subjects designed to prepare them for further academic and on-the-job training in one of the Navy's 85 basic occupational fields.

Included in their studies were seamanship, close order drill, Naval history and first aid.

He joined the Navy in February 1977.

**Pageant is**  
**scheduled**  
**this week**

The search for this year's All American Girls began in Atlanta when the Georgia State Pageant was held March 11 and 12th. This was the first in a series of nationwide pageants being held in conjunction with Holiday Inns. Mississippi's first All American Girl State Pageant will be held May 6-7 at the Holiday Inn in Hattiesburg. The state pageant will include the categories of the All American Girl - ages 3-6; All American Little Miss - ages 7-9; All American Miss - ages 10-12; All American Teen - ages 13-17 and the All American Girl - ages 18-26.

Pageant officials anticipate 16-20 girls will vie for the coveted title in each age group. At the present time there are a few vacancies in each category and any girl interested in seeking the title of All American Girl is urged to contact our headquarters immediately.

All contestants except the 3-6 year age group will compete in talent competition with the talent winners receiving a trophy and the opportunity to participate in the national pageant as candidates-at-large. Trophies will also be presented to the best talent in each category for dance, baton, gymnastics, music, voice and drama.

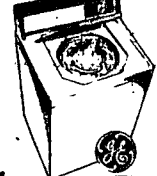

Parents of would-be contestants may receive further information or application by writing: All American Girl Pageant, P.O. Drawer 1630, Dothan, Alabama 36301 or calling 205-792-4907. PTA's, band boosters, dance schools, civic clubs and other organizations interested in sponsoring a local pageant as a fund raising project may also inquire.

## FLOOD CONTROL ORDINANCE HANCOCK COUNTY, MISSISSIPPI ORDINANCE NUMBER 4-2

An Ordinance known as the Flood Control Ordinance of Hancock County, Mississippi, regulating land use and establishing control measures for special flood hazard areas in conjunction with regulations established by the Federal Insurance Administration, Department of Housing and Urban Development, for maintaining Hancock County's eligibility in the National Flood Insurance Program as printed in the Federal Register on October 26, 1976.

BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF HANCOCK COUNTY, MISSISSIPPI, that the Ordinance Number 4-2, known as the Flood Control Ordinance of Hancock County, Mississippi, is hereby enacted as follows:

### ARTICLE I. STATUTORY AUTHORIZATION. FINDING OF FACT, PURPOSE AND OBJECTIVES

Section I. Statutory Authorization. This ordinance is adopted pursuant to the authority set forth in Title 19, Chapter 3, Section 9 of the Mississippi Code of 1972, as amended.

#### Section II. Finding of Fact.

A. The flood hazard areas of Hancock County are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare. B. These flood losses are caused by the cumulative effect of obstructions in flood plains causing increases in flood heights and velocities, and by the occupancy of flood hazard areas by structures vulnerable to floods or hazardous to other lands which are inadequately elevated, floodproofed, or otherwise protected from flood damages.

#### Section III. Statement of Purpose.

It is the purpose of this Ordinance to promote the public health, safety and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed to: A. Restrict or prohibit uses which are dangerous to health, safety and property due to water or erosion hazards or which result in damaging increases in erosion or in flood heights or velocities. B. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction. C. Control the alteration of natural flood plains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters. D. Control filling, grading and natural extraction which may increase erosion or flood damage. E. Prevent or regulate the construction of flood barriers which will unilaterally divert flood waters to other lands.

#### Section IV. Objectives.

The objectives of this ordinance are: A. To protect human life and health. B. To minimize expenditure of public money for costly flood control projects. C. To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public. D. To minimize prolonged business interruptions. E. To minimize damage to public facilities and utilities such as water and sewer lines, streets and bridges located in flood plains. F. To help maintain a stable tax base by providing for the sound use and development of flood prone areas in such a manner as to minimize future flood light areas.

### ARTICLE II. DEFINITIONS

Section I. Rules of Construction. For the purpose of this ordinance, certain terms or words used herein shall be interpreted as follows: A. The present tense includes the future tense, the singular number includes the plural, and the plural number includes the singular unless the text clearly indicates the contrary. B. The word "shall" is mandatory, the word "may" is permissive. C. Unless specifically defined below, words or phrases used in this ordinance shall be interpreted so as to give them the meaning they have in common usage and to give these regulations their most reasonable application.

#### Section II. Definitions.

For the purpose of this ordinance, certain terms, words and phrases shall have the meaning hereafter defined as follows: A. **APPROPRIATE STRUCTURE.** A structure which is on the same parcel of property as the principal structure to be insured and the use of which is incidental to the use of the principal structure.

B. **AREAS OF SPECIAL FLOOD HAZARD.** The lands in the flood plain within the county which are subject to a one percent or greater chance of flooding in any given year.

C. **BASE FLOOD.** The flood having a one percent chance of being equalled or exceeded in any given year.

D. **BUILDING.** See "structure."

E. **COMMUNITY.** Any political subdivision which has authority to adopt and enforce flood plain management regulations for the areas within its jurisdiction.

F. **DEVELOPMENT.** Any man-made change to improved or unimproved real estate, including but not limited to buildings or other

structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

G. **EXISTING MOBILE HOME PARK OR MOBILE HOME SUBDIVISION.** A parcel (or contiguous parcels) of land divided into two or more mobile home lots on which a mobile home is to be affixed (including, at a minimum, the installation of utilities, either final site grading or the pouring of concrete pads, and the construction of streets) completed before the effective date of this ordinance.

H. **EXPANSION TO AN EXISTING MOBILE HOME PARK OR MOBILE HOME SUBDIVISION.** The preparation of additional sites by the construction of facilities for servicing the lots on which mobile homes are to be affixed (including the installation of utilities, either final site grading or pouring of concrete pads, or the construction of streets).

I. **FLOOD OR FLOODING.** (1) A general and temporary condition of partial or complete inundation of normally dry land areas from: (a) the overflow of inland or tidal waters, (b) the unusual and rapid accumulation of runoff of surface waters from any source; (2) The alleged subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual event which results in flooding as defined in (1) above.

J. **FLOOD PLAIN OR FLOOD-PRONE AREA.** Any land area susceptible to being inundated by water from any source (see definition of "flooding").

K. **FLOOD PLAIN MANAGEMENT.** The operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works and flood plain management regulations.

L. **FLOODPROOFING.** Any structural additions, changes, adjustments to structures which reduce or eliminate flood damages to real estate or improved real property, water and sanitary facilities, structures and their contents.

M. **FLOODWAY.** See "regulatory floodway."

N. **HABITABLE FLOOR.** Any floor usable for living purposes, which includes working, sleeping, eating, cooking or recreation, or a combination thereof. A floor used only for storage purposes is not a "habitable floor."

O. **MEAN SEA LEVEL.** The average height of the sea for all stages of the tide.

P. **MOBILE HOME.** A structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when connected to the required utilities. It does not include recreation vehicles or travel trailers.

Q. **MOBILE HOME PARK OR MOBILE HOME SUBDIVISION.** See "existing mobile home park or mobile home subdivision" or "new mobile home park or mobile home subdivision."

R. **NEW CONSTRUCTION.** Structure for which the "start of construction" commenced on or after the effective date of this ordinance.

S. **NEW MOBILE HOME PARK OR MOBILE HOME SUBDIVISION.** A parcel (or contiguous parcels) of land divided into two or more mobile home lots for rent or sale which the construction of facilities for servicing the lots on which mobile homes are to be affixed (including at a minimum, the installation of utilities, either final site grading or the pouring of concrete pads, and the construction of streets) is completed on or after the effective date of this ordinance.

T. **100 YEAR FLOOD.** See "base flood."

U. **PERSON.** Any individual or group of individuals, corporation, partnership, association, or any other entity including state and local governments and agencies.

V. **PRINCIPALLY ABOVE GROUND.** At least 51 percent of the actual cash value of the structure, less land value, is above ground.

W. **REGULATORY FLOODWAY.** The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

X. **RIVERINE.** Relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

Y. **START OF CONSTRUCTION.** The first placement of permanent construction of a structure (other than a mobile home) on a site, such as the pouring of slabs or footings or any work beyond the stage of excavation. Permanent construction does not include land preparation such as clearing, grading, or filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a structure (other than mobile home) without a basement or poured footings, the start of construction includes the first permanent C. All new construction or substantial improvements shall be constructed by methods and materials which shall be designed to minimize flood damage.

D. All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.

E. New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system.

## VA Affairs

A change in GI Bill payment procedures, effective June 1, 1977, will bring checks at the end of the month rather than at the beginning to 1.5 million veterans, dependents and servicemembers enrolled in Veterans Administration education programs. These and other changes are explained in a "stuffer" to be sent with April and May checks. Merlyn J. Cook, Assistant VA Center Director for Regional Office, said today.

**NOW WEARING U.S. AIR FORCE** silver wings following graduation from pilot training at Craig AFB, Ala., is Second Lieutenant Richard P. Cooper, son of Mr. and Mrs. Robert J. Cooper of Rt. 4, Bay St. Louis. Lt. Cooper is being assigned to McChord AFB, Wash., for flying duty C-141 Starlifter. The lieutenant, a 1971 graduate of Sibley High School, received his commission through the Reserve Officer Training Corps program and a B.S. degree in 1975 at the University of Southern Mississippi, Hattiesburg. His wife, Kelly, is the daughter of Mr. and Mrs. Fred Ratzin of the Farmington, Derby, Kan.

Another June 1 change, brought about by law, modifies an arrangement which in the past automatically gave trainees a two-month money advance at the start of school. Ending of the prepayment system will have the most noticeable effect on veterans-students continuously enrolled this summer. They will receive their last VA check under the prepayment system on May 1, covering enrollment for May.

The next check, covering June enrollment, will be issued July 1. Subsequent VA checks will follow each additional month of enrollment. A student whose enrollment ends in June will receive the payment for June on July 1.

The modified advance payment procedure permits advance payment at the beginning of a school term for the first month or partial month, plus the following month only if the student makes a written request and the school agrees to process the advance payment. Prior to this new legislation, all students got advance payments automatically, Cook noted.

Students under the GI Bill or the dependents educational assistance program who wish an advance payment should contact their school, because the student's written request for advance payment must be included on the school enrollment certification submitted to VA.

VA emphasized the enrollment certification containing the advance payment request must be received at least 30 days before the start of regular registration. Disabled veterans under VA rehabilitation programs should contact their VA rehabilitation specialist for further information.

Eligible veteran-students requesting advance payment for the fall school session should be aware that no additional check will be forthcoming from the VA for approximately three months, Cook said.

For example, a veteran receiving an advance payment check in September, covering September and October, would not receive an education payment for November until Dec. 1, because of the elimination of the prepayment provision, Cook explained.

Students with questions concerning VA educational checks are urged to contact the Veterans Representative on Campus or their local VA Regional Office.

## Stanislaus grad awarded fellowship

The Institute of International Education announced today that Brad Gerred Williams who attended Vassar College has been awarded a Fulbright-Hayes Teaching Fellowship for graduate study in France during the 1977-78 academic year. Approximately 260 grants are made available

each year to young American students and artists under programs sponsored by IIE.

"Characters must be kept bright as well as clean," Lord Chesterfield

Trucks carry nearly all poultry and eggs from farm to market.

foreign governments, universities and private donors and administered by IIE.

Many of these foreign grant programs were initiated during the 1920's. They were suspended during World War II, but were reinstated in the late 1940's. The purpose of the programs is to increase mutual understanding between the people of the United States and other countries through the exchange of people, knowledge and skills.

Williams is the son of Mr. and Mrs. Phillip Williams and resides at 285F Ponce de Leon, New Orleans.

Williams is a resident of New Orleans and is presently a student at Vassar College in Poughkeepsie, New York. He attended St. Stanislaus High School in Bay St. Louis. He will graduate on the 15th of May from Vassar.

Wallace Edgerton, President of the Institute of International Education, recently stated:

"Exchange programs such as these bring our young men and women a deeper, more focused insight into international events than would ever be available to them through the news media or tourism. International education can do this because it provides the means to understand the world and its people, not just to know the facts, but also to have a meaningful context for them."

The Institute of International Education, a leading private, non-profit agency in the field of

## Military Mention

Navy Airman Recruit Robert E. Bissonette, son of Mr. and Mrs. Henry F. Bissonette Jr. of Pass Christian, has completed recruit training at the Naval Training Center, Orlando.

During the eight-week training cycle, trainees studied general military subjects designed to prepare them for further academic and on-the-job training in one of the Navy's 65 basic occupational fields.

Included in their studies were seamanship, close order drill, Naval history and first aid.

A 1976 graduate of Pass Christian High School, he joined the Navy in August 1976.

Conference is planned at USM

Many book publishers and other companies are expected to exhibit at the 37th Annual Reading Conference to be held May 7 and 14 and June 4, 11 and 18 at the University of Southern Mississippi.

Credit can be used as an elective in the Master of Science of Reading program and for Mississippi state teacher certification.

Exhibitors include the Mississippi Library and Media Supply company, Coronet Media, EMC Corp., Grolier Instructional Systems, Ginn and Co., The Economy Co., Misco and Encyclopedia Britannica Educational Corp.

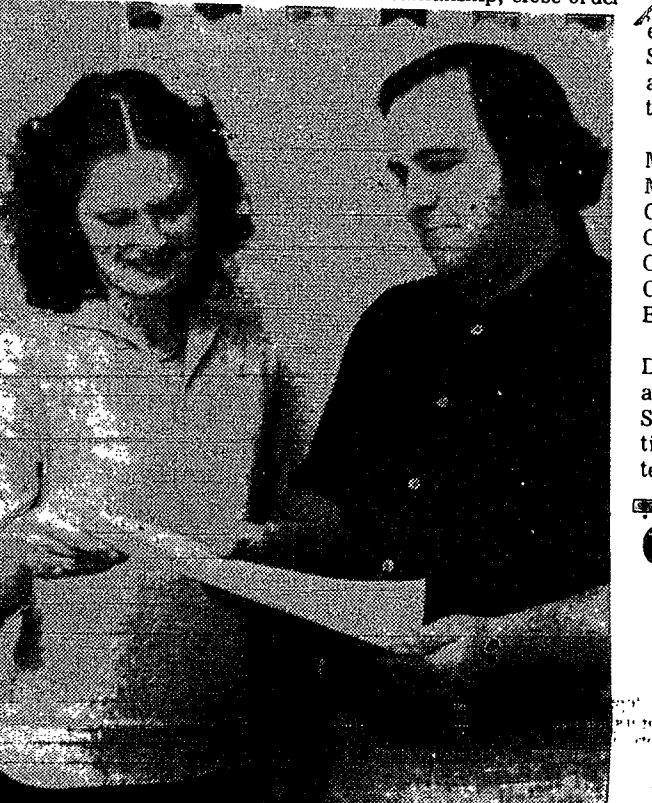

For additional, contact the Department of Conferences and Workshops, Southern Station, Box 5136, Hattiesburg, Miss. 39401, telephone 266-4265.

WINNERS

## WIN UP TO \$1,000.00 IN CASH VISIT A&P AND PLAY Super Cash BINGO

Enter today! You could be a winner. Just follow these rules:

- Each time you visit A&P, you get a free Super Cash Bingo number ticket at the Service Desk or Checkout counter.
- Push out all 4 numbers from each number ticket and insert into matching number on the Master Card. Free squares are the same as covered numbers.
- When you have a complete row of numbers vertically, horizontally or diagonally one of the 4 games on the Master Card, you have won the cash prize shown at the top of that game. Only one cash prize per game or Master Card.
- Take your winning card to your A&P store manager. Once it's verified, you will receive your cash award. When you turn in your winning card, you'll receive a new Master Card, so you can keep playing.

**\*ODDS CHART FOR SUPER CASH BINGO**  
These odds are in effect as of May 1, 1977

| NUMBER OF WINNERS | GAMES | ODDS ONE-WIN | ODDS TWO-WINS | ODDS THREE-WINS | TOTAL |
|-------------------|-------|--------------|---------------|-----------------|-------|
| 1                 | 100   | 1000         | 1000          | 1000            | 3000  |
| 2                 | 200   | 500          | 500           | 500             | 1500  |
| 3                 | 300   | 333          | 333           | 333             | 1000  |
| 4                 | 400   | 250          | 250           | 250             | 750   |

# The Sea Coast Echo

SEA COAST ECHO, MAY 5, 1977

This tug boat, estimated at some 30 feet in length, proved a mystery to residents of Bay St. Louis as they spotted the half sunken vessel in the Bay Monday morning. Police Chief Douglas Williams said the boat was reportedly tied to the St. Stanislaus pier, but was causing damage and was then cut loose. The boat sank between the L&N railroad bridge and the pier.

## UMC warns of bite

A family searching each other for ticks at their campsite may resemble the flea picking session in a monkey cage at the zoo, but a tick check is one of the necessary precautions against tick bite, says a University of Mississippi Medical Center entomologist.

"Certain species of ticks in Mississippi can transmit Rocky Mountain spotted fever (RMSF) which can be fatal if left untreated," said Dr. Keegan, professor of preventive medicine. In fact, the state ranked third last year in the number of reported cases of the disease. Ticks can also carry tularemia, a bacterial infection, and cause tick paralysis.

Spring and summer are tick seasons, Dr. Keegan said, but Mississippians needn't curtail their camping trips or other outdoor activities.

"The simplest and most effective precaution against tick bites is insect repellent sprayed on the clothes, especially around arm and leg cuffs and necklines. It should be re-applied after walking through wet grass and brush or wading in water," he advised.

A tick check twice a day around the scalp, armpits, groin, and buttocks might reveal ticks which attached themselves in spots where the repellent wore off. Parents should look closely on a child's scalp, a favorite tick hiding place.

Tick paralysis, sometimes a life threatening illness, too, can occur when an egg-engorged female attaches herself to a human and remains for several days. Once the tick is removed, symptoms begin to disappear.

"No one knows why some tick bites cause paralysis and others don't," Dr. Keegan said. Unlike RMSF, tick paralysis doesn't seem to be caused by a disease organism, but by a substance in tick saliva.

When a tick transmits RMSF, it may bite, stay on a few hours and then drop off. That's part of the problem in treating the disease. The tick is long gone by the time the symptoms start — fever, headache, muscle aches, rash, and internal bleeding, so the illness may not be associated with tick bite.

"A tick has to feed on an infected animal at some point in its life cycle to transmit RMSF to humans," Dr. Keegan said. As seed ticks (the larval stage), they may feed on small rodents. And as nymphs and adults, on deer and other animals including man.

Once a tick has been infected, the RMSF organisms are transmitted through the eggs to the next generation of ticks.

"An area can become infested rather quickly with ticks carrying RMSF," he said. Hunting dogs and those allowed to roam in the woods can bring disease-carrying ticks to humans. But the brown dog tick, found on dogs which are house pets, don't carry disease which affects man, he said.

The wood tick, the Gulf Coast tick, and the lone star tick, all native to Mississippi, can transmit RMSF. Though males do bite, their main function is to fertilize the female while she is feeding on a host animal. After she's been fertilized, she swells to marble size with the blood from the host animal and drops off. She dies after she deposits her eggs.

Other less harmful blood suckers campers may find in the woods are red bugs (chiggers). "Allergic reactions to red bug bites are possible but rare," Dr. Keegan said. "If children scratch the bites too much, an infection could result. Insect repellent is the best protection against these pests, too."

123rd year

## St. Stanislaus to hold commencement exercises

Commencement exercises of the 123rd graduating class of St. Stanislaus High School, Bay St. Louis, will take place on Saturday, May 14, at 11 A.M. in Our Lady of the Gulf Catholic Church. Carl Schott will deliver the valedictory and Ralph Ott will give the salutatory for the graduating class.

Brother Paul Montero, S.C., principal of St. Stanislaus High School, will announce the 95 members of the graduating class. Brother Hubert Bonnette, S.C., president of St. Stanislaus, will confer the diplomas upon the 1977 graduating class and the Golden Jubilee Class of 1927. Following the conferring of diplomas, he will also present the graduation awards. Included in these awards will be the "Character Cup," given to the outstanding graduating day student and to the outstanding graduating boarding student; the St. Stanislaus Alumni Association Award; and the "President's Award," the highest award given to a graduate of St. Stanislaus.

Jubilarians of the class of 1927 are Luke Babin, Elmo Blaize, Ralph Blaize, Henry Bonura, John Bradley, Anthony Brady, Alphonse Burke, Frank Chalona, Foster Fournier, Scott Hubert, Albert Leonard, Jr., Marchmont Schwartz, John Simpson, Jared Thier, Joseph Vaccaro, and John Waters.

Candidates for the graduating class from the Bay St. Louis area are the following: Sam Armato, Jr., Charles Baker, Victor Balch, Michael Battalora, Jeff Boos, Michael Boucher, Harry Bowes and Thomas Breux. Glenn Cason, Donald Corr, Jr., Nguyen Van De, George DiBenedetto, Perry Elchos, Levy Eymard and Kenneth Fayard, Jr.

Edward Flynn, Mark Garcia, Drew Garrett, Lucien Gex III, Michael Goodsell, Michael Haas, Jr., Royce Hathaway and Gene Hoda. Martin Hoda, Leonard Keel, Ronald Kellum, Brian Kelly, Joseph Kersanac, Jr., Rudy Letellier, Steven Longo and Mark McCarthy.

William Marquex III, Michael Matthews, Olo Mollere, Jr., Mark Moran, David Morse, Joseph Mutter, and John Waters.

Mrs. Maurice George displayed a sock doll and gave a demonstration on making one. The gift basket was won by Mrs. Richardson.

Mrs. Thomas closed the meeting with the thought for the day, "We have no more right to consume happiness without producing it than to consume wealth without producing it."

Mrs. Norine Barnes, extension home economist, will conduct a "Sew with Knits" program Friday, May 6, at 10 a.m. in extension auditorium. Further information is available by calling 467-9494, 467-5154 or 467-9075.

Joe Nguyen and Peter Nguyen. Xavier Niolet III, Michael Odenwald, Ralph Ott, Charles

Piazza, Dale Scaffidi, Carl Schott, Kevin Seeger and Peter Skladzien, Jr. Forrest Stevens, Robert

Taconi, Jr., Donald Thomas, Lee Tilton IV, Joel Wallace, Thomas Weathersby and Jeff Wittmann.

A proclamation declaring May as Better Hearing and Speech Month in the City of Bay St. Louis was signed last Friday by Mayor Warren Carver. Looking on is Terrie Hall, Speech Pathologist for the BSL City Schools. A copy of the proclamation appears in today's issue.

(ECHO Photo by Jerry Whittle)

## Officers installed by Kiln VFW Auxiliary

The Ladies Auxiliary to Kiln Memorial VFW Post 6285 held its election of officers on April 19, at the Post Home.

The following officers were elected: Jenelle Koenen,

President; Barbara Moran, Senior Vice-President; Mildred Bobinger Junior Vice-President; Joyce Ladner, Treasurer; Lora Haas, Chaplin; Marselline Cuevas, Conductress; Lois Garcia, Guard; Johnnie Mae Hermann, One Year Trustee;

Aloise Shiyoo, Two Year Trustee and Ellen Peterson, Three Year Trustee.

Installation will be held on May 14, at 2:00 p.m. at the V.F.W. Post Home with Past State President Jean Woodard as Installing officer.

## Handcrafters meet with Mrs. Garcia

Clermont Handcrafters Club met Monday afternoon in the home of Mrs. Lloyd Garcia with Mrs. A. M. Thomas, president, presiding.

Mrs. Eunice Murray, program chairman, read an article entitled, "Biologist Warns of Impending Disaster."

Mrs. William Richardson was appointed chairman for the Club's summer social to be held in her home Monday, June 6.

Mrs. Maurice George displayed a sock doll and gave a demonstration on making one. The gift basket was won by Mrs. Richardson.

Mrs. Thomas closed the meeting with the thought for the day, "We have no more right to consume happiness without producing it than to consume wealth without producing it."

Mrs. Norine Barnes, extension home economist, will conduct a "Sew with Knits" program Friday, May 6, at 10 a.m. in extension auditorium. Further information is available by calling 467-9494, 467-5154 or 467-9075.

Evans to earn degree at NLU

James Thomas Evans of Bay St. Louis is one of approximately 600 persons who are candidates for degrees in Northeast Louisiana University's spring commencement ceremonies scheduled for 7:30 p.m. May 7 in Ewing Coliseum on the NLU campus.

Enoch T. Nix, vice president of the Board of Trustees for State Colleges and Universities, will deliver the commencement address. Dr. Dwight D. Vines, NLU president, will confer degrees and award diplomas.

THE OLE  
PASTOR  
SAYS...  
A DEVOTIONAL COMMENTARY

News sources tell us what recent polls indicate that the greatest concern of most people in America and world today is inflation. Obviously the cost of living is rapidly rising beyond the financial reach of most people. The "experts" among news analysts, economists and politicians hasten to tell us of both the cause and cure of inflation. But it continues to rise nonetheless. The Bible gives the only real cause and cure for all such economic imbalances and inequities.

The cause is nothing more nor less than human greed. Right? That's the simple but gun-barrel-straight message of God's Word. "He that is greedy of gain troubleth his own house; ..." - Proverbs 15:27.

Too many of this generation has come to expect and demand everything it desires without working for it. Again, the Bible says: "If any would not work, neither should he eat" - II Thessalonians 3:10. Idleness has never been good for anyone. In the beginning God said to Adam, and to his posterity: "In the sweat of thy face shalt thou eat bread, till thou return unto the ground; ..." - Genesis 3:19. The constant increase in crime which so troubles America today is the result of greed idleness more than anything else.

When people do not work, there is no production of goods and services. Consequently, what goods and services there are come extremely high. It is as simple as that. Greed is the culprit. There is no mistake about that. Greed will cause men to cheat, swindle, lie, steal, defraud, kill and destroy. "For the love of money is the root of all evils which while some have

coveted after, they have erred from the faith, and pierced themselves through with many sorrows," declares the Word of God - I Timothy 6:10.

Jesus warned: "Take heed, and beware of covetousness: for a man's life consisteth not in the abundance of the things he possesseth" - Luke 12:15.

When we demand a price for goods or services which is unfair and unwarranted; whether it be labor, wholesaler, retailer, or manufacturer, God says such is extortion. And extortion is a sin which God will judge - Ezek. 22:12; Matt. 23:25; I Cor. 5:11; I Cor. 6:10. Lots of professed Christians as well as others need to study these scriptures.

Listen, for a moment, to the warning of Jeremiah the prophet of God: "As the partridge sitteth on eggs, and hatcheth them not; so he that getteth riches, and that not by right, shall leave them in the midst of his days, and at his end shall be a fool" - Jer. 17:11.

Inflation in the cost of living is caused by people who are able, but not willing, to work. They want all their needs and desires satisfied without working for it. What is the cause? Greed! What is the cure? Repentance on the part of people of their greed, avarice and covetousness; and the resulting contempt for God demonstrated in the lawlessness it breeds. - L.S. Walker

You can make hardened paint brushes as good as new by simmering them in boiling vinegar for a few minutes and then washing them in soapy water.

Evans to earn degree at NLU

James Thomas Evans of Bay St. Louis is one of approximately 600 persons who are candidates for degrees in Northeast Louisiana University's spring commencement ceremonies scheduled for 7:30 p.m. May 7 in Ewing Coliseum on the NLU campus.

Enoch T. Nix, vice president of the Board of Trustees for State Colleges and Universities, will deliver the commencement address. Dr. Dwight D. Vines, NLU president, will confer degrees and award diplomas.

THE OLF

**PASTOR SAYS...**  
A DEVOTIONAL COMMENTARY

News sources tell us what recent polls indicate that the greatest concern of most people in America and world today is inflation. Obviously the cost of living is rapidly rising beyond the financial reach of most people. "experts" among news analysts, economists and politicians hasten to tell us of both the cause and cure of inflation. But it continues to rise nonetheless. The Bible gives the only real cause and cure for all such economic imbalances and inequities.

The cause is nothing more nor less than human greed. Right? That's the simple but gun-barrel-straight message of God's Word. "He that is greedy of gain troubleth his own house; ..." - Proverbs 15:27.

Too many of this generation has come to expect and demand everything it desires without working for it. Again, the Bible says: "If any would not work, 'eat' should the eat." - II Thessalonians 3:10. Idleness has never been good for anyone. In the beginning God said to Adam, and to his posterity: "In the sweat of thy face shalt thou eat bread, till thou return unto the ground; ..." - Genesis 3:19. The constant increase in crime which so troubles America today is the result of greed idleness more than anything else.

When people do not work, there is no production of goods and services. Consequently, what goods and services there are come extremely high. It is as simple as that. Greed is the culprit. There is no mistake about that. Greed will cause men to cheat, swindle, lie, steal, defraud, kill and destroy. "For the love of money is the root of all evils which while some have

coveted after, they have erred from the faith, and pierced themselves through with many sorrows," declares the Word of God - I Timothy 6:10. Jesus warned: "Take heed, and beware of covetousness: for a man's life consisteth not in the abundance of the things he possesseth" - Luke 12:15. When we demand a price for goods or services which is unfair and unwarranted; whether it be labor, wholesaler, retailer, or manufacturer, God says such is extortion. And extortion is a sin which God will judge - Ezek. 22:12; Matt. 23:25; I Cor. 5:11; I Cor. 6:10. Lots of professed Christians as well as others need to study these scriptures.

Listen, for a moment, to the warning of Jeremiah the prophet of God: "As the partridge sitteth on eggs, and hatcheth them not; so he that getteth riches, and that not by right, shall leave them in the midst of his days, and at his end shall be a fool" - Jer. 17:11.

Inflation in the cost of living is caused by people who are able, but not willing, to work. They want all their needs and desires satisfied without working for it. What is the cause? Greed! What is the cure? Repentance on the part of people of their greed, avarice and covetousness; and the resulting contempt for God demonstrated in the lawlessness it breeds. - L.S. Walker

You can make hardened paint brushes as good as new by simmering them in boiling vinegar for a few minutes and then washing them in soapy water.

## 675 projects contributed for Pass Art-Science Fair

BY JERRY WHITTLE  
Judging was completed Monday afternoon on 675 projects contributed for the Arts and Science Fair conducted at Pass Elementary School and top winners were awarded blue ribbons for their achievements.

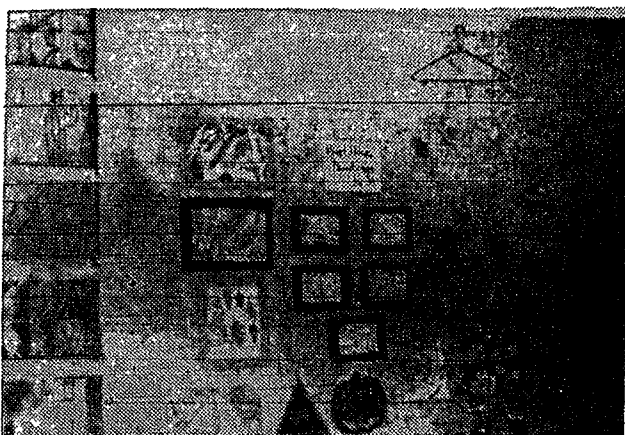

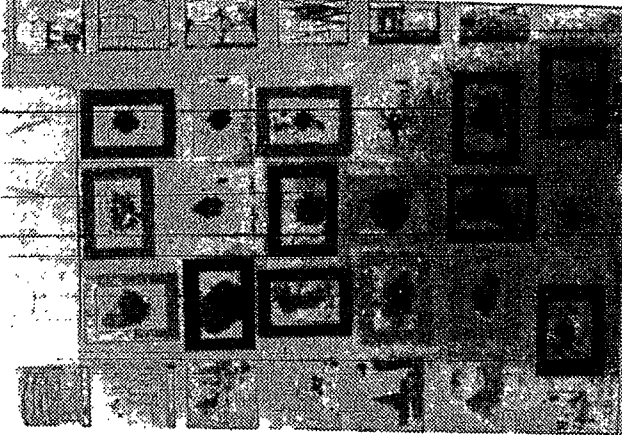

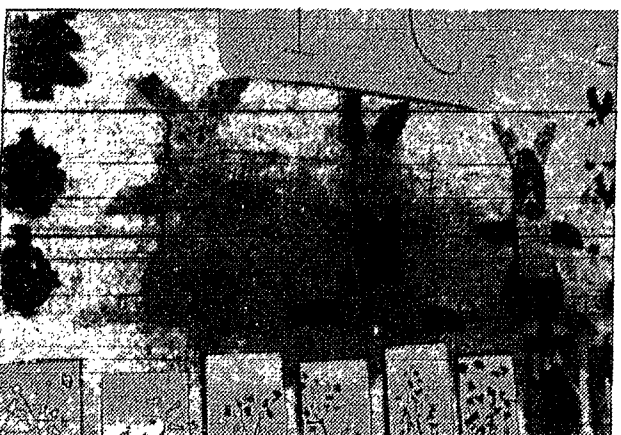

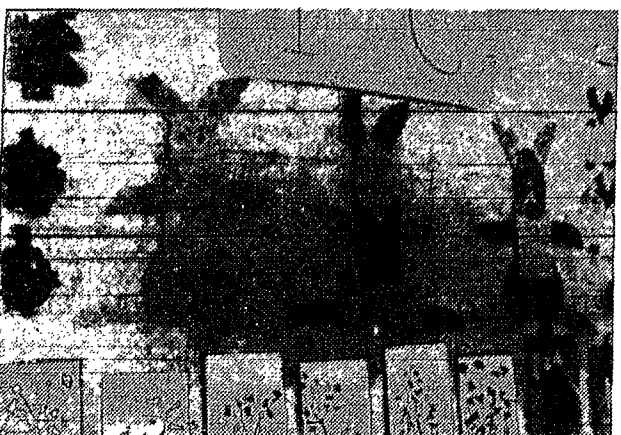

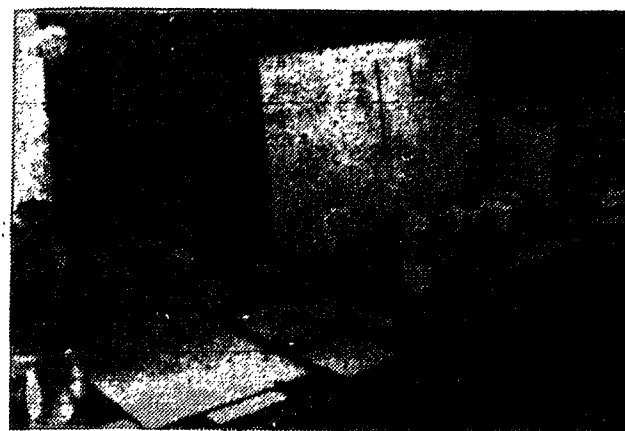

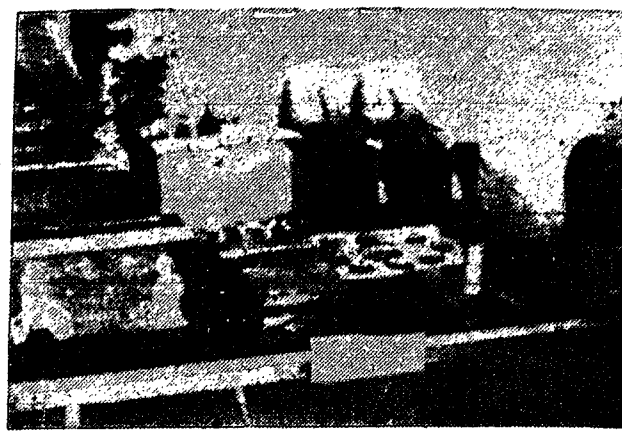

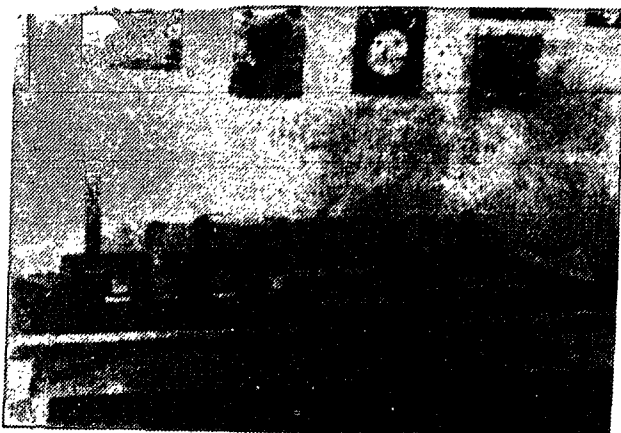

In the arts division, a total of 618 projects were displayed in the auditorium and 56 blue ribbons were presented to the top winners. Other ribbons were awarded to all of those who took part in the fair. Participants ranged from

kindergarten through the fourth grade at Pass Elementary.

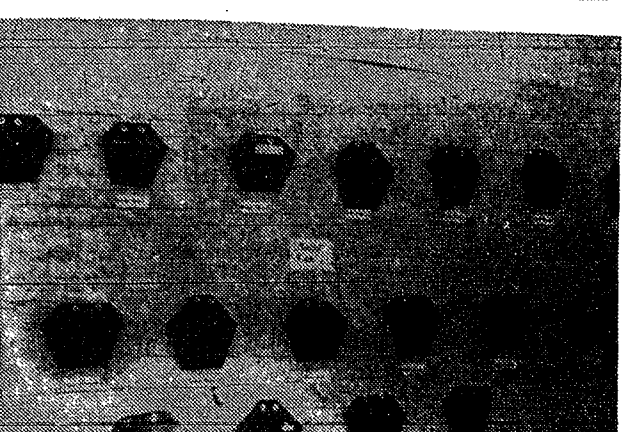

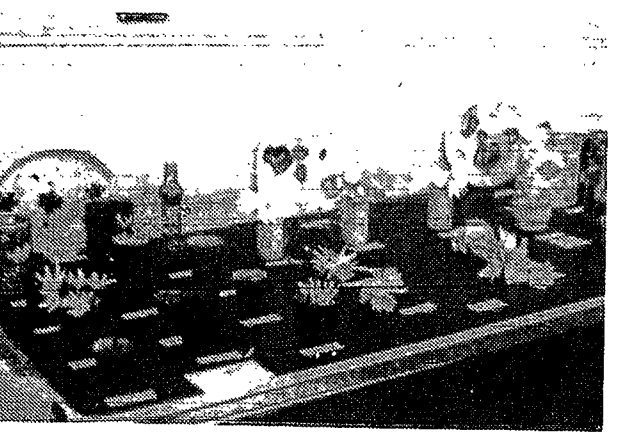

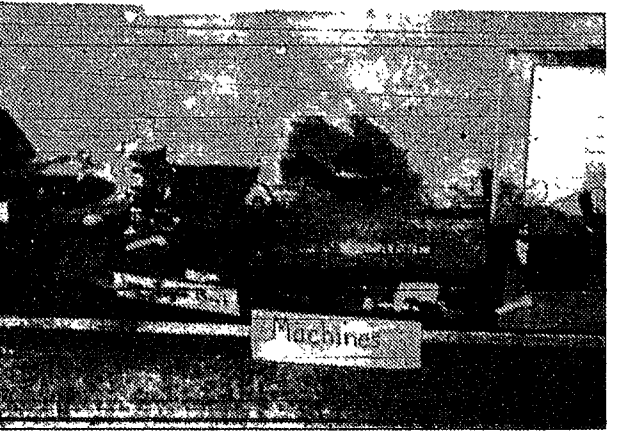

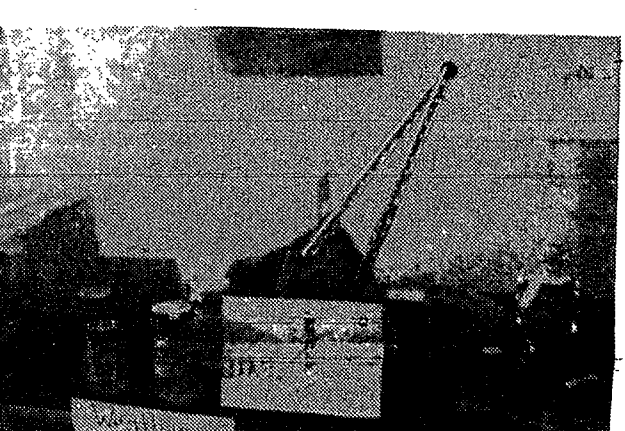

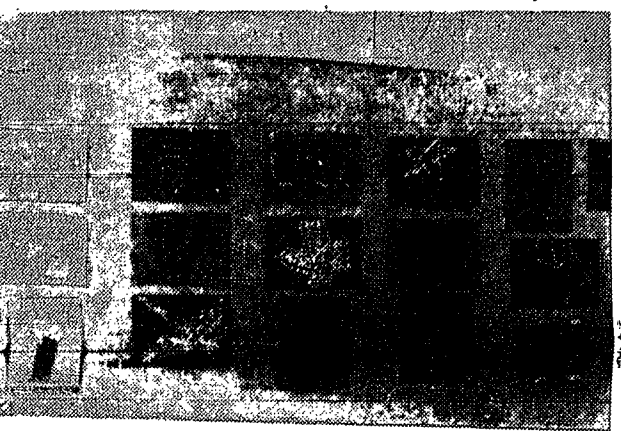

Planning for the year long event was started last fall and the exhibits came from art classes at the school. Science projects were constructed at students' home.

The science exhibits totaled 57 and 10 blue ribbons were awarded to the top winners. All other entries also received ribbons.

The displays were reviewed at a PTA meeting Monday evening at the auditorium.

Scenes from Pass Elementary arts and science fair

## Wolves In Mississippi By Ed Blake-Ag Affairs

MISSISSIPPI'S wolf population is on the increase throughout most of the state's counties although the modern variety has mixed bloodlines as compared with the native red wolf species that inhabited the state until the mid-forties.

Today's animal looks and acts about like the wolves of old. Their spread is more rapid today as a result of an increase in coyotes from across the Mississippi to eastern Mississippi and Alabama. Accordingly, more reports of encounters between farmers, sportsmen, and the new wolf-coyote hybrid are being filed.

Late last month this writer had his first brush with a wolf in the wild with a few shades of the Red Riding Hood story legitimately thrown in. It all happened in a wooded area east of Ripley, Mississippi, on the morning of April 2. The writer was the guest of farmer James Mitchell and we had just visited 92-year-old "Grandma" Mitchell who daily bakes goodies for her children's table. From her house we set out to cross a woodland leading to a pond. We went halfway by pickup truck and then climbed out to enter the woods near the pond as Queen, the Mitchell's small black dog, ranged into the woods barking wildly. Moments later as we trudged along the trail with fishing

gear Queen crossed the trail in front of us and the wolf suddenly appeared closing in on her.

Several minutes later Queen ran terrified from the woods where we fished as the large grey animal pursued the dog from thick woods to a pond dam where she scampered to our side for safety. The wolf stalked unafraid along the water's edge nearby - a huge grey creature, strong, alert, and unafraid of us. It paraded in full view for a minute or so before trotting back into the woods out of sight. As we related the incident at the Tiptah County Farm Bureau office, the county Bureau president J.W. Owen told of a similar encounter in the woods on his farm, only his wolf preferred to just sit and watch him at close range. Yelling and beating the ground with a stick were meaningless to the wolf who simply sat gazing at the man. Finally he got up and casually walked away.

County agent Ray Sartor related similar encounters in the county. One rural resident saw five in a pack. Another one, carrying a hen in its mouth. Many have been shot and killed, and some trapped, according to Bill Turcotte of the Mississippi Game and Fish Commission.

Turcotte related that actually the last known pure red

wolf was killed in Claiborne county about 1946 and its skull positively identified. That breed today only exists in southeast Texas and southwest Louisiana near the coast and they are among the endangered species - so they should not be shot, Turcotte said.

Today's increasing Mississippi wolves are actually hybrids of the red wolf species, coyotes migrating in from the west in increasing numbers, and wild dogs. They do not attack humans but feed on most any form of small animal or fowl they can catch. They are a menace to sheep and occasionally small hogs.

B.E. Gandy, director of the Mississippi Museum of Natural Science, reports that these animals are identified by their skulls and the state museum has about 25 or 30 skulls which have been classified by mammalogists. Their characteristics range from pure red wolf to coyote with some dog influence thrown in.

Gandy said no timber wolves have ever been found in the state as these animals range much farther north. He said a large mounted specimen once killed in the state had been identified and exhibited in the museum as a red wolf based on examination by a federal mammalogist.

However, subsequently two other federal experts viewed it and challenged the identification and proved through more extensive examination that it was primarily a coyote in wolf-like clothing.

The wildlife folks tell us that today although the wolf-

coyote-dog hybrids are increasing and continuing to spread eastward there is no cause for alarm. Grandma's house and the woodland paths thereto remain safe despite a long remembered childhood fable.

## State Hwy. Commission Opposes Gasoline Tax

The State Highway Commission has voiced opposition to the proposed gasoline tax outlined in President Carter's proposal for energy conservation.

During regular Commission meeting on Tuesday, April 26, the Highway Commission passed an order that their position be forwarded to Mississippi's Congressional Delegation.

The Commission order said, "The results of this additional tax would be penalizing the people in Mississippi, which is agricultural and rural in nature, and would be subsidizing those states where rapid and mass transit have a greater use."

The Commission added that an additional tax on gasoline is not the proper approach to

fuel conservation because gasoline usage amounts to only about ten percent of total fuel consumption and would not be equitable considering total petroleum usage.

The Commission strongly feels the end results of this proposed additional gasoline tax will reduce financing for maintenance and construction of the highways of Mississippi to an intolerable level.

Also, the Commission is definitely opposed to the proposals that revenue from additional tax on gasoline be diverted to any area other than financing our transportation system.

According to the Commission, the proposal that the Highway Trust Fund (established by Congress to build Federal Aid Highways)

PEANUTS GANG IN UM MUSICAL  
The 1976-77 theatrical season at Ole Miss will close April 22-23 with the production of "You're a Good man Charlie Brown," the highly successful Broadway musical comedy which features all the characters of the famous comic strip. Performances are at 8 p.m. both nights in Fulton Chapel.

## Legal notices

STATE OF MISSISSIPPI  
COUNTY OF HANCOCK  
NOTICE OF TRUSTEE'S SALE

WHEREAS, default having been made in the payment of the indebtedness secured by a Deed of Trust from Michael Ross and wife, Martha Ann Ross, to Southern Savings and Loan Association, Ray L. Crowell, Trustee, dated March 9, 1976, and recorded in Book 192, Page 240, Records of Mortgages and Deeds of Trust of Hancock County, Mississippi; and

WHEREAS, said property was conveyed to Dorothy B. Schenk by instrument dated July 15, 1976, and recorded in Land Deed Book AA-10, Page 296, in the Office of the Chancery Clerk of Hancock County, Mississippi; and

WHEREAS, the holder and owner of the Deed of Trust and note securing the same has requested the undersigned Trustee to foreclose said Deed of Trust as provided therein, in the event of default.

NOW, THEREFORE, I, Ray L. Crowell, Trustee, under the provisions of and by virtue of the authority conferred upon me in the same Deed of Trust, will on the 13th day of May, 1977, within the legal hours at the north front door of the County Courthouse of Hancock County, Mississippi, in the City of Bay St. Louis, Mississippi, offer for sale and sell said property for cash to the highest and best bidder, the following described property lying and being situated in the County of Hancock, State of Mississippi, to-wit:

Lots 16 and 17 of a subdivision of Lots 16, inclusive, 24, 25, 26, 27, 28, 29, and 30 of Gulf Gardens Subdivision, Third Ward, Town of Waveland, Hancock County, Mississippi, as per map or plat of said subdivision as recorded in Volume 145, Page 486, Deed Records of Hancock County, Mississippi.

The undersigned Trustee will convey only such title as is vested in him by virtue of the above-described Deed of Trust.

WITNESS MY SIGNATURE, this 14th day of April, 1977, Trustee  
Ray L. Crowell, Trustee  
4-21, 4-28, 5-5, 5-12-77

## NOTICE TO CREDITORS

NO. 13,455  
Notice is hereby given that letters Testamentary on the estate of Mrs. Elizabeth Emma Becker, deceased, were granted to the undersigned by the Chancery Court of Hancock County, Mississippi, on the 28th day of April, 1977, and all persons having claim against said estate are hereby notified to present their claims to the Clerk of said Court and to have them probated and allowed within 3 months from this date, failure to do so will bar the claimant from recovery.

This 28th day of April, 1977.

ADVERTISEMENT  
FOR BIDS

Sealed proposals for two "New Community Centers for Hancock County Board of Supervisors" will be received by the Board of Supervisors at the Courthouse, Bay St. Louis, Mississippi until 10:00 A.M. Monday May 16, 1977, at which time and place all bids will be publicly opened and read aloud.

Proposals received after this hour will be returned unopened. Proposals will be received for either of the two projects or for both combined. The Owner may award a contract for either or both projects together or for none.

Plans and specifications are on file in the offices of the Chancery Clerk of Hancock County and Fred Wagner Architect, Bay St. Louis, Mississippi. Copies may be obtained from the Architect upon deposit of \$6.00 for each set. Upon return of complete, unutilized sets, refunds will be made as follows:

100 percent refund on first set to bidding general contractors  
50 percent refund on all other sets

Proposals must be submitted on business (check) and triplicate as set forth in Form of Proposal.

Proposals must be accompanied by a bid security in the amount of 5 percent of the bid in the form of a bid bond countersigned by an agent in Hancock County, or in the form of a certified or cashier's check.

A contract will be awarded to the lowest qualified bidder if sufficient funds are available. The Owner reserves the right to reject any and all bids and to waive any informalities.

Published by Order of the Board of Supervisors, this 18th day of April, 1977.

## CHANCERY SUMMONS

NO. 13,451  
The Board of Trustees of the Bay St. Louis Municipal Separate School District will accept bids up to 2:00 p.m. Monday, May 23, 1977 for the repairing and cleaning of all Electric and Manual Typewriters and also Calculators and Adding Machines for the public schools for the 1977-78 season.

The Board reserves the right to accept or reject any and all bids.

Mrs. Joseph W. Gen  
President, Board of Trustees  
J.D. McCulloch  
Superintendent of Public Schools  
5-5, 5-12-77

PUBLIC NOTICE  
INVITATION TO BID

STATE OF MISSISSIPPI  
HANCOCK COUNTY  
TO ALL PERSONS INTERESTED  
IN ANY ONE OR MORE OF THE  
FOLLOWING TRACTS OF LAND  
SITUATED IN HANCOCK COUNTY,  
MISSISSIPPI, TO-WIT:

Tract 1: The east 20.00 chains of the Northeast Quarter of Section 6, Township 9 South, Range 14 West, Hancock County, Mississippi, containing 80.00 acres.

Tract 2: Beginning at the northeast corner of Section 17, Township 9 South, Range 14 West, Hancock County, Mississippi; thence west 3.60 chains; thence south 3.60 chains; thence east 3.60 chains to the point of beginning; situated in said Section 17, and containing 1.30 acres.

Tract 3: Beginning at a point 2.90 chains south of the northeast corner of Section 18, Township 9 South, Range 14 West, Hancock County, Mississippi; thence south 1.35 chains; thence west 1.40 chains; thence north 1.35 chains; thence east 1.40 chains to the point of beginning; situated in said Section 18, and containing 0.20 acres.

Tract 4: The South Half of the Southeast Quarter (S 1/4 of SE 1/4) of the West Half of Northeast Quarter (W 1/2 of NE 1/4) of the Northeast Quarter of Township 9 South, Range 14 West, Hancock County, Mississippi, containing 240.00 acres.

Tract 5: Beginning at the northeast corner of Section 29, Township 9 South, Range 14 West, Hancock County, Mississippi; thence run south 8.10 chains; thence run east 8.10 chains; thence run north 8.10 chains to the point of beginning; situated in said Section 29, and containing 66.00 acres.

Notice is hereby given that the Board of Supervisors of Coahoma County, Mississippi, has authorized and directed the submission of sealed proposals or bids to lease, sell, and otherwise dispose of the above-described tracts for purposes of oil, gas and mineral exploration, mining, development and production.

Said lands constitute in lieu of "school lands" heretofore properly selected and set aside in the portions of 16th sections situated in Coahoma County, Mississippi.

The Board of Supervisors of Coahoma County, Mississippi, has prescribed all the terms and conditions of the proposed lease, and has prescribed also the royalty to be retained by the lessor, the annual rentals to be paid by the lessee, the primary term of the proposed lease, and all other provisions of the proposed lease. The only item subject to bid for the proposed lease is the amount of the bonus to be paid by the lessee for each lease. A true copy of the proposed lease form containing all the terms and provisions as prescribed by said Board of Supervisors is on file and available for inspection by any interested person in the office of the Chancery Clerk of Coahoma County at Clarksdale, Mississippi.

Any person interested in submitting bids for the proposed lease hereby is notified and invited to file a sealed proposal therefor with the Clerk of the Board of Supervisors (who is the same person as the Chancery Clerk) of Coahoma County, Mississippi, at his office in Clarksdale, Mississippi, on or before 2:00 o'clock p.m. on May 11, 1977. Each of the above-described five (5) tracts will be considered separately, and if leased, will be covered by a separate lease. All proposals should specify the amount bid with respect to each such separate tract. Bids may be submitted for less than all tracts.

All such proposals so filed will be opened by the Board of Supervisors at said time or as soon thereafter as is conveniently possible, and during a regularly scheduled meeting of said Board of Supervisors, and thereupon, subject to the approval of the County Superintendent of Education of Coahoma County, Mississippi, said Board of Supervisors will award the proposed lease covering each separate tract to the highest bidder therefor in the manner provided by law. Said Board of Supervisors reserves the right to reject any and all bids and reserves the right to approve leases on some but not all of the above-described tracts.

This 4th day of April, 1977.

The Board of Supervisors of Coahoma County, Mississippi, has prescribed all the terms and conditions of the proposed lease, and has prescribed also the royalty to be retained by the lessor, the annual rentals to be paid by the lessee, the primary term of the proposed lease, and all other provisions of the proposed lease. The only item subject to bid for the proposed lease is the amount of the bonus to be paid by the lessee for each lease. A true copy of the proposed lease form containing all the terms and provisions as prescribed by said Board of Supervisors is on file and available for inspection by any interested person in the office of the Chancery Clerk of Coahoma County at Clarksdale, Mississippi.

Any person interested in submitting bids for the proposed lease hereby is notified and invited to file a sealed proposal therefor with the Clerk of the Board of Supervisors (who is the same person as the Chancery Clerk) of Coahoma County, Mississippi, at his office in Clarksdale, Mississippi, on or before 2:00 o'clock p.m. on May 11, 1977. Each of the above-described five (5) tracts will be considered separately, and if leased, will be covered by a separate lease. All proposals should specify the amount bid with respect to each such separate tract. Bids may be submitted for less than all tracts.

All such proposals so filed will be opened by the Board of Supervisors at said time or as soon thereafter as is conveniently possible, and during a regularly scheduled meeting of said Board of Supervisors, and thereupon, subject to the approval of the County Superintendent of Education of Coahoma County, Mississippi, said Board of Supervisors will award the proposed lease covering each separate tract to the highest bidder therefor in the manner provided by law. Said Board of Supervisors reserves the right to reject any and all bids and reserves the right to approve leases on some but not all of the above-described tracts.

This 4th day of April, 1977.
